COOPERATION AGENCY

CHAMBER OF THE COMMERCE AND
INDUSTRY OF KYRGYZ REPUBLIC

A decorative golden border with a repeating floral pattern runs across the top. The background is a teal color with white line art depicting a hand holding a pen, a sunburst, and various geometric shapes.

COST OF DOING BUSINESS IN KYRGYZSTAN

2013

Dear ladies and gentlemen!

You are holding the handbook “The cost of doing business in the Kyrgyz Republic”. This is the first publication that has condensed all the necessary information for opening and doing business in the country into one publication. The publication of the handbook was possible thanks to the support of the Japan International Cooperation Agency (JICA). We express our appreciation to the Chief Representative of JICA in the Kyrgyz Republic Mr. Takayuki Oyama for supporting this initiative of the Chamber of Commerce and Industry of the Kyrgyz Republic on publishing a handbook which is so important and necessary for domestic and foreign businesses.

The publication of the handbook is mandated by the demands of time. Today, when every minute counts, a potential entrepreneur or investor must possess reliable information on doing business beginning from its formation and development to its closing. The handbook shows the methods of opening an enterprise, required procedures, and the cost, licenses and permits, certificates, sizes of taxes and social payments, logistics and cargo transportation, and other items of critical business information. We believe that the handbook will make it possible for domestic and foreign entrepreneurs to make the initial calculations for opening a business. The Kyrgyz Republic is a country with vast natural, tourism, and human potential, and it is open for investment. The sphere of light industry is developing dynamically, there are great prospects for the development of the mining and hydropower sectors, and there is the potential to provide several foreign markets with organic agricultural products.

The handbook will certainly be useful for small and medium businesses. It is important for us to develop small and medium businesses as it is well known that this sector plays an important economic and social role in the coun-

try by providing tax revenues to the state budget, jobs to the population, as well as reacting to changes in the market and creating goods and services without large investments and resources.

We hope that the handbook will be a useful for everyone: potential foreign investors starting their activities with small and medium-sized enterprises, those who plan to open a new business, those who already have an active one, etc. In turn, the Chamber of Commerce and Industry of the Kyrgyz Republic (the CCI) – which has become the main power in the country consolidating small, medium, and large businesses, the main defender of the interests of the business community for the half-century of its activity – is ready to assist in the promotion and development of your business.

We wish success to your business!

**Sincerely,
Marat Sharshokeev**

**The President of the Chamber of Commerce and Industry
of the Kyrgyz Republic**

The Chamber of Commerce and Industry of the Kyrgyz Republic (CCI)

The Chamber of Commerce and Industry of the Kyrgyz Republic is a nongovernmental, non-profit organization founded on December 24th, 1959, and now acts on the basis of the law "On the Chamber of Commerce and Industry of the Kyrgyz Republic" adopted by the Parliament of the Kyrgyz Republic on April 13th, 1994. The mission of the CCI of the Kyrgyz Republic is to promote a beneficial legal environment, infrastructure, and other circumstances conducive for the establishment, development, and protection of business in the Kyrgyz Republic. The CCI is committed to ensuring real and equal opportunities for every entrepreneur to develop businesses in the country and to access international markets.

The Chamber of Commerce and Industry of the Kyrgyz Republic is a member of organizations such as the International Council for Cooperation of the Chambers of Commerce and Industry and the Economic Chambers of the CIS countries and Baltic States, Eastern and Central Europe; the Islamic Chamber of Commerce; and the Chamber of Commerce of the ECO. The CCI of the Kyrgyz Republic has long-term cooperation agreements with the Chambers of more than 50 countries. The main focus of the agreements is: the exchange of information, commercial proposals and business delegations, conducting exhibitions and fairs, and assistance for establishing direct contacts.

Bilateral Business Councils have been established within the CCI of the Kyrgyz Republic and they cooperate with many foreign countries. After joining the Business Councils, businesses have the opportunity to meet and exchange information, ideas, and prospective projects requiring investment and joint implementation.

The Chamber of Commerce and Industry of the Kyrgyz Republic has representative offices in many foreign countries which provides local entrepreneurs with opportunities for new partnerships and entrance

into promising markets. The CCI has offices in all the regions of Kyrgyzstan which allows necessary services for entrepreneurs to be provided in a timely manner throughout the country.

The Committees of the Chamber of Commerce and Industry of the Kyrgyz Republic are formed and operated in order to bring together the business communities of the Kyrgyz Republic to address critical issues regarding the development of entrepreneurship, the improvement of the established legal framework, the promotion of participation by entrepreneurs in the formation and implementation of government support measures, and the establishing of lasting business relations in the Kyrgyz Republic and foreign countries. The work of the Committees of the CCI is based on participation by volunteers. Recommendations and proposals on current business issues are developed during the meetings of the Committees and then sent for further consideration to the relevant government agencies and local authorities.

The constituency of the Chamber of Commerce and Industry of the Kyrgyz Republic, its members, is constantly growing in number. Membership in the CCI is a sign of the maturity and reliability of the organization worldwide. Full members of the CCI of the Kyrgyz Republic are legal entities and individuals of the Kyrgyz Republic and other states, as well as their associations carrying out their activities within the territory of the Kyrgyz Republic. Membership in the CCI contributes to a higher level of confidence in the company and demonstrates the importance of the company as a member of the business community showing that it is not only profitable but prestigious as well.

It is necessary to send a statement signed by the head and chief accountant, submit the completed application form, and pay membership dues to become a member of the CCI of the Kyrgyz Republic.

The CCI membership dues:

Subjects	A one-time admission fee KGS	A one-time admission fee USD	The annual membership fee KGS	The annual membership fee USD
Private entrepreneurs and government agencies	3,000	61.4	3,000	61.4
Small and medium-sized enterprises with up to 150 employees	10,000	102.4	5,000	102.4
Large enterprises with more than 150 employees	30,000	204.9	10,000	204.9

Dear friends!

There is the first edition of the handbook "Cost of doing business in the Kyrgyz Republic." This edition is dedicated to the initiators and entrepreneurs and investors who already have their businesses and wish to make an investment in Kyrgyzstan in order to give them numerical information on opening, doing, and closing business. It is hoped that this information will help in calculating expenses for entrepreneurial activity in the beginning and will help in understanding which parts need special attention, where it is possible to find detailed information, and which main steps should be taken during the process of opening and doing entrepreneurial activity. Also we hope that this hand book will help representatives of government bodies and the business community to see which areas could be improved.

Japan International Cooperation Agency (JICA) has provided financial support for this handbook edition within the framework of its "Program for Business and Investment Promotion" within the "Cooperation strategy of JICA and the Kyrgyz Republic." Within the framework of the program there are also training programs for entrepreneurs and representatives of government bodies in Japan and the Kyrgyz Republic. One of the flagships for teaching entrepreneurs in Kyrgyzstan is the joint-project of JICA and the Kyrgyz National University named after J. Balasagyn "The Kyrgyz Republic - Japan center for human development" (KRJC).

Takayuki Oyama

**Chief Representative of JICA
in the Kyrgyz Republic**

The Kyrgyz Republic - Japan Center was founded in 1995, and for almost 20 years has played the important role in the rapprochement of Kyrgyzstan and Japan in the areas of business development and deepening mutual understanding. Since 2004 the Kyrgyz Republic - Japan Center has been organizing a "Practical Business Course", which has as its objectives the transfer of knowledge and skills for effective business management, the exchange of experience, and the expansion of the network of entrepreneurs who have taken its business courses. In 2009 the Kyrgyz Republic - Japan Center became a member of Japan - Kyrgyz Network for Investment Environment Improvement together with the Ministry of Foreign Affairs and the Ministry of Economy, Trade and Industry of Japan. More than 7,000 entrepreneurs were trained at various seminars and courses of the Kyrgyz Republic - Japan Center.

While globalization is intensifying in the world, the stagnation which has penetrated into various sectors of the economy is still felt in the Kyrgyz Republic. The Kyrgyz Republic - Japan Center takes its own place in exercising the functions of the human capital development and business accelerator, which provides business opportunities to the business community of the country and partners with entrepreneurs from the Kyrgyz Republic in the world economy.

We hope that this publication will help the participants of the business market in the Kyrgyz Republic to become more competitive in the global market.

This edition has been prepared by a group of experts led by Nurbek Elebaev, an accomplished economist of the Kyrgyz Republic and the managing director of the Finance & Consulting Company Niet-Araket.

The Finance & Consulting Company Niet-Araket is one of the leading companies in the investment and consulting services market of the Kyrgyz Republic. It has 20 years of experience working with domestic and foreign business and investors. The company advises foreign and domestic investors regarding strategic and portfolio investments, provides qualitative services for the development and promotion of investment projects, analyzes the financial and funds markets of the republic, manages investment operations, consults with businesses and government authorities, and also does research and processes for the development of corporate governance, attracting funds and investment, public-private partnership, and the improvement of the investment environment in the Kyrgyz Republic.

Cooperation and partnership with international organizations is a high priority for the company. This is demonstrated by its cooperation with international organizations such as the: ECUN, UNDP, WB, EBRD, ADB, USAID and CIPE in terms of improving legislation, the introduction of new standards and tools, creating favorable conditions for business development, and the promotion of economic reforms in the Kyrgyz Republic. One particular example of this kind of partnership is collaboration with the JICA representative in the Kyrgyz Republic. Last year the company did research on the establishment of a system of commerce and logistics centers for the distribution of fruits and vegetable in the Kyrgyz Republic which was highly appreciated by the customer, public authorities, and the business community. The present work of writing "The cost of doing business in the Kyrgyz Republic" guidebook is a continuation of the mutually beneficial cooperation between the company and the JICA.

1. The Kyrgyz Republic

State structure

In the Kyrgyz Republic the structure of the state is defined by the Constitution adopted on the 27th of June, 2010. The new constitution structures the government of Kyrgyzstan as a parliamentary republic. As a result, Kyrgyzstan is unique as the only parliamentary republic in the region. In accordance with the previous constitution adopted at the dawn of the country's independence in 1993, Kyrgyzstan had been a presidential government.

The President is elected by national vote for a term of 6 years, without the right to run for re-election for a second term.

The Prime Minister is the head of the government and is appointed by the Parliament as advised by the majority party or majority coalition.

The Jogorku Kenesh is the parliament of the KR and has the priority to make decisions and determine the most important decisions and policy of the State. It is single-chamber, and consists of 120 deputies that are elected for the term of five years according to the party lists.

The state language of the Kyrgyz Republic is Kyrgyz, and the official language is Russian. Both languages have equal force, and record-keeping is maintained in both languages.

IMPORTANT!

However, in accordance with the legislation of the Kyrgyz Republic, the original document is considered to be the document that is in the Kyrgyz language. It means that up to this time, the priority in official policy and record-keeping is given to the state language.

History

The Kyrgyz Republic is a secular state that gained independence at the end of the last millennium, and has conducted an open integration policy with other countries and the world market as a whole. The country has a rich and ancient history. The first mention of the Kyrgyz is by a famous Chinese historian and chronicler - Sym Qiang - in 201 BC.

Brief chronology of the modern times

On August 31, 1991 Kyrgyzstan declared itself an independent and sovereign State - the Republic of Kyrgyzstan.

On March 20, 1992 Kyrgyzstan established diplomatic relations with the Russian Federation, and also became a member of the Commonwealth of Independent States, the United Nations Organization, as well as the Collective Security Treaty Organization, and the Shanghai Cooperation Organization.

In 1992 Kyrgyzstan also became a member of international organizations such as the International Monetary Fund, the World Bank, and the International Finance Corporation.

On May 5, 1993 the first Constitution of the Kyrgyz Republic as an independent sovereign state was adopted. The official name of the country was changed from the Republic of Kyrgyzstan into the Kyrgyz Republic.

On May 10, 1993 Kyrgyzstan was the first nation in Central Asia to introduce its own national currency – the KG som.

January 14, 1994 the Jogorku Kenesh approved the State coat of arms and flag of the Kyrgyz Republic.

Geography

The Kyrgyz Republic is located in Central Asia occupying a territory of about 199.9 thousand sq. km (77,540 sq. miles) making it 85th in the world in size. The territory of the Republic stretches 900 km east to west and 410 km north to south.

The Kyrgyz Republic is a mountainous country - 94.2% of its territory lies at a height of more than 1000 m above sea level, and 40.8% at more than 3000 m. It borders Kazakhstan to the north, Uzbekistan to the South-West, Tajikistan to the South, and China to the South-East.

The climate is continental with air temperature varying from -40 centigrade in winter to +40 centigrade in summer. The Republic is in the list of 20 countries in the world that has plenty of fresh water.

Based on it's the administrative-territorial structure, the Kyrgyz Republic is a unitary state. The capital of the Republic is Bishkek.

Administrative-territorial division

Territory of the Republic is divided into 7 districts, 39 rural regions, 4 regions within Bishkek, 21 cities including 1 city of the republican subordination (Bishkek), 13-district, 7-regional. One finds 29 urban-type settlements and 430 village councils in the Republic.

Population

The resident population according to estimates as of September 1, 2013 was 5,663,1 million.

Districts:	Territory (thou.sq. km.)	Population (thou. persons)	Centre
Bishkek-capital	0.17	1,374	
Osh	29.2	1,354	Osh city
Djalalabad	33.7	871.9	Djalalabad city
Chui	18.7	768.1	Bishkek city*
Issyk-Kul	43.1	432.2	Karakol city
Batken	17	385.5	Batken city
Naryn	46.7	267	Naryn city
Talas	11.5	209.7	Talas city

*Note: As the capital, Bishkek is considered a separate entity and its population is counted separately even though it is also the center of Chui.

Macroeconomic indicators

	KG soms	US dollars at the rate of the National Bank of the KR as of 10.10.2013 (48.8405)
GDP	236.9 bln.	4.85 bln.

Gross domestic product

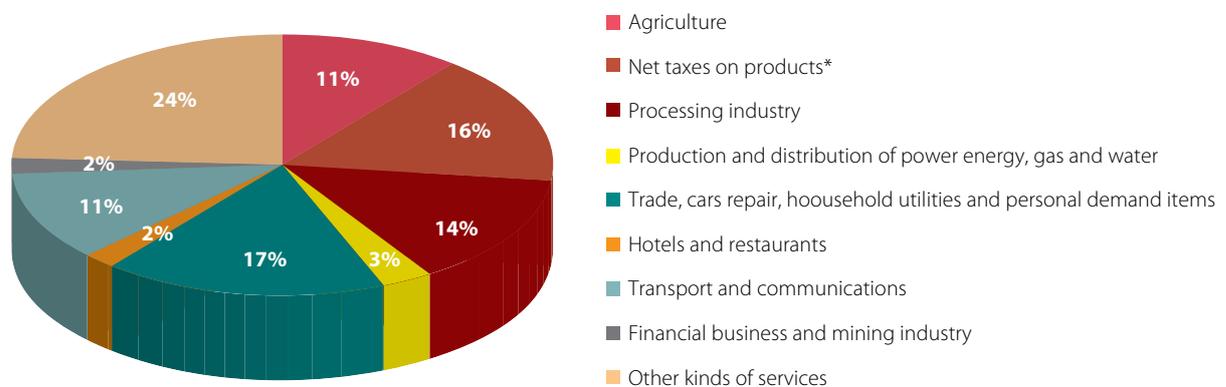

In the first half of 2013, the real growth of GDP compared with the same period of the previous year comprised 7.9%, and was, principally, in industry (39%), trade (17%), transport and communications (16%), construction (8%). Growth in the industries rendering services in first half of the year comprised 5.5%.

Excluding the enterprises involved in the "Kumtor" deposit development, GDP growth was 5.5%, in which more than a half of the total growth was provided by the services sphere. The deflator (consolidated prices index of all economy branches) from January-June of the previous year was 104.6 %.

Industry	Industry comprises more than 39% of GDP of the economy of the Kyrgyz Republic. The basic industrial products (up to 91%) consist of five main industries: metallurgical production; food stuff, including drinks and tobacco; fabric and garment manufactures; construction materials; and energy, water and gas generation.
Agriculture	Growth in the gross output volume of agriculture, hunting, and forestry in January-June 2013 was particularly caused by the livestock industry. In January-March, 2013, the agricultural, foodstuffs, and processing industries' production for export amounted to 43.7 mln. US dollars, a decrease of 28.7% from the previous year. The share of exports made up of the agricultural and processing industry out of the total volume of export for January-March 2013 comprised 14.4%, whereas it was 15.8% in the same period of 2012.
Construction	An increase of investments in fixed assets was caused by a 2.2 times increase in the volume of construction in the manufacturing facilities sector, 1.8 times in hotels and restaurants, 14.1% in communications, 1.9 times in health and social services, and 1.3 times in housing construction. At the same time, their ratio in the total volume of investments in the fixed assets amounted to 54.6% against 38.6% in January to June 2012. Growth in the gross output of construction was caused by increasing the volume of completed construction, contracting, and other works, as well as the overhaul and repair of buildings and structures.

Trade	An increase in domestic trade turnover as compared with January-June 2012 was due to the growth in retail and wholesale trade, including mainly businesses related to motor vehicles and motorcycles, auto parts, components and accessories, as well as motor fuel. The foreign trade turnover of the Kyrgyz Republic (based on customs statistics); including the foreign trade volume of natural persons counted in a summary procedure, in January -March 2013 increased by 1.7 % and amounted to 1,477.9 mln. US dollars compared to the same period in 2012. While import revenues increased by 10.3 % to 1,175.1 mln dollars, export deliveries were down by 22.0 % and were 302.8 mln. US dollars.
Services	The volume of market services rendered by business entities (legal entities and natural persons) for the first half of 2013 according to preliminary estimates amounted to 173 billion KG soms, an increase of 8.3% when compared to the same period of the previous year. Approximately 70% of the total volume of market services was rendered to the population. The growth in market services was due to increasing in the volume of telecommunications services (18.3 %), health and social services (11.2%), hotels and restaurants (9.7%), trade volume in the areas of car repairs, household goods, and personal demand items (8.1 %) and transportation (7.6 %).
Energy and water resources	The Kyrgyz Republic has a great potential for hydropower development. The Republic occupies third place among the CIS states in the volume of water resources generated in its territory. The country counts 252 large and medium rivers whose potential is estimated at 18.5 million kW of power and more than 140-160 bln. kWh. of electrical power, of which less than 10% is used. The rivers Naryn, Sary-Jaz, Kokomeran, Chatkal, Tar, Chu, Kara- Darya and Chon-Naryn have large reserves of hydropower resources, with average slopes varying from 5 to 20 m for 1 km length, and the average specific capacity ranges from 2227 to 5322 kW/km.

Note: *Includes all income from taxation, customs duties and insurance payments.

IMPORTANT!

“Kumtor” is the largest gold-mining project of Centerra Gold International Company that is being implemented in Kyrgyzstan. The Kyrgyz Republic through “Kyrgyzaltyn” OJSC is a holder of the largest stock of the Company’s shares or about 33% Gold deposits are evaluated at 700 tons. “Kumtor” – is the most highly mountainous mine in the world. The deposit is located in the Issyk-Kul district of the country at a distance of 350 km. from Bishkek and 60 km. from the border with China. It is the most successful and major budget revenue generating project in the country. Kumtor’s share of the GDP of Kyrgyzstan is 12%.

Natural resources and minerals of the KR as of January, 2013

The Kyrgyz Republic has great potential with many types of natural minerals. Geologists have discovered thousands of different deposits and occurrences of metallic and nonmetallic minerals within its territory. The complex and long geological development of the Kyrgyz Tien Shan has created favorable conditions for the formation of various mineral deposits.

Among the main types of metallic minerals are: iron, manganese, vanadium, aluminum, tungsten, tin, mercury, antimony, beryllium, bismuth, tantalum, niobium, gold, silver. The discovered reserves of minerals of gold, mercury, and antimony allow domestic demand to be met, as well as successful export to be pursued.

There are great prospects for the extraction of iron, vanadium, aluminum, copper, molybdenum, and beryllium. The industrial significance of tantalum, cobalt, zirconium, lithium, and colored stones extraction should not be excluded. Kyrgyzstan ranks fourth in the CIS after Russia, Uzbekistan and Kazakhstan in gold production.

Resource	Deposits	Annual production (2012)	Geological reserves (2013)
Gold	Kumtor, Makmal, Solton-sary, Terk, Terekkan, Ishtamberdy, Djeruy	10.4 tons	460 tons
Mercury	Khaidarkan, Novoe, Chonkoi, Chauvay	74.7 tons	63.30 thou. tons
Stibium	Kadamjai, Terk, Khaidarkan, Novoe, Kassan, Northern Aktash and Abshir	924.2 tons	265.2 thou. tons

Oil	The deposits are located in Djalal-abad and Batken districts	77.1 thou. tons	97.4 mln. tons
Coal	Kara-Keche-Central area. Suliukta-mine field №11. Coals of rank K-Uzgen basin, MinKush	1,184 bln. tons	1.3 bln. tons.
Natural gas	The deposits are concentrated in the southern regions of the country in the foot hills of Fergana valley	28.5 thou. m ³	12.6 bln.m ³
Aluminum	Sandyk and Sardalek	-	298 mln. tons
Tin	Trudovoe, Uchkoshon and Kensu	-	208.8 thou. tons
Tungsten	Trudovoe, Uchkoshon and Kensu	-	124.9 thou. tons
Rare-earth metals	Kutessaill, Aktiuz mine	-	51.5 thou. tons
Beryllium	Kalesai, Tiuktu-Archa, Chetendy, Uzun-Tashty	-	86.6 mln. tons

Besides the minerals shown in the table, Kyrgyzstan also has reserves of uranium. For about 100 years, starting in pre-revolutionary Russia, the deposits of radioactive ores and minerals in Kyrgyzstan were the only sources of uranium and radium for Russia. From 1907 to 1970 it produced the first Soviet radium. Since the mid-1950s, Kyrgyzstan was the largest uranium producer in the former Soviet Union. In the territory of the Kyrgyz Republic, there are hundreds of deposits of building materials, mining, and chemical raw materials. Five cement plants with a capacity of 2.57 million tons of cement per year are operating on its base. The existing raw material base of construction materials allows the needs of the Republic to be met.

Investment climate

Government of the Kyrgyz Republic in recent years has implemented a broad range of reforms in order to create a favorable investment environment to encourage investments in the country. At the same time it is pursuing an open and liberal investment regime in the country (one of the priorities of the state economic policy) by implementing a variety of events and reforms in the investment and entrepreneurial spheres and by the creation of a steady and predictable legal framework for domestic and foreign investment. The crucial economic and investment changes and reforms in this area are listed below.

Creating a favorable investment environment

The Law of the Kyrgyz Republic "On Public- Private Partnership in the Kyrgyz Republic" was adopted in 2012 and increases the transparency of interaction and collaboration between government and business and also determines the types of government support the state guarantees along with the protection of private investment.

In 2013, Kyrgyzstan unilaterally introduced a 60 day visa-free entry regime for the citizens of the 44 countries where the per capita GDP is more than 7,000 U.S. dollars.

In 2012, through the provision of a Government Decree, 59 enterprises processing agricultural products were exempted from income tax.

In 2012, Pursuant to a Government decision, companies operating in the textile, clothing manufacture, and furniture industries were exempted from customs clearance fees imposed for the import of equipment used exclusively for their own business purposes.

The investment threshold allowing an investor to receive an investor visa has been reduced from 500 to 100,000 U.S. dollars.

Investors are entitled to freely repatriate capital as well as income gained from investment activities in the territory of the Kyrgyz Republic in a freely convertible currency.

In 2013, the President of the Kyrgyz Republic approved a national strategy aimed to address the causes of corruption in the government structure, which will help eradicate corruption factors in the public service delivery system and to create the conditions for the smooth and timely access by citizens and investors to high-quality services.

Status of Kyrgyzstan in the international rating "Doing business" classified by the World Bank and International Finance Corporation

The data from the World Bank on Doing Business in different countries shows that the business environment in Kyrgyzstan is not ideal. However, in spite of that, they confirm that as compared with previous ratings, there are improvements in many areas.

	rating of the country in 2005	rating of the country in 2013	rating change
Doing Business	104	70	+34
Establishing a company	34	15	+19

Permitting	138	96	+42
Registration of ownership	54	11	+40
Credit activities	96	12	+84
Investors' protection of interests	33	13	+20
Taxation	152	168	-16

Source: <http://www.doingbusiness.org/reforms/overview/economy/kyrgyz-republic>

ATTENTION!

As shown in the table by the majority of indicators, which exert an influence on the rating of business and investments of Doing Business in Kyrgyzstan, there is significant improvement and growth. However, at the same time one should note that the indicator in taxation went 16 positions down. This is a result, the experts of the World Bank explain, of the fact that in 2012 the Kyrgyz Republic increased the tax rates for companies by introducing a real estate tax although it decreased the sales tax rates.

2. Founding a new enterprise

All the types of businesses considered below seem very simple at first glance. However, only an in-depth study, research and observation of each of them will allow one to make the right choice when establishing a new business. It also affects the form of business organization and business enterprise founded. A business is created with the official launch of business activities, whether or not as a legal entity or as a joint venture with the participation of foreign persons. Therefore, the process of opening a new company and choosing its legal form is crucial for the business.

Legal organization and forms of entrepreneurship according to the Kyrgyz Republic's legislation

Form of organization	Founders	Property origins	Liability for obligations	Further details*
Individual entrepreneur	Kyrgyz citizens, foreign citizens, persons without citizenship, temporarily or constantly residing in the Kyrgyz Republic	Not required	All property except for property which cannot be seized according the law	State registration
Full partnership	Citizens and/or legal entities No less than two members	Partner Contributions	Joint subsidiary liability of all property born by partners for partnership obligations	Founded and operated on the basis of a foundation agreement which also functions as a charter of the partnership
Limited partnership	Full partners – citizens and/or legal entities Limited partners – individual entrepreneurs and/or legal entities No less than two members	Partner and limited partner contributions	Full partners – all property Limited partners – according the contributions they made	There are one or several members (limited partners) together with members (full partners) performing business activity on behalf of the partnership and liable for obligations of the partnership
Limited liability company	Citizens and/or legal entities Founding by one person is possible	Participant Contributions	Does not bear the obligations of a company but a risk of loss related to the company's activity within the contributions they made	Founded and operated on the basis of a foundation agreement (if there is more than one founder) and a charter
Double Liability Company	Citizens and/or legal entities	Participant Contributions	Joint subsidiary liability of all property born by partners for partnership obligations	Founded and operated on the basis of a foundation agreement (if there is more than one founder) and a charter

Open Joint-stock Company	Citizens and/or legal entities Open Joint-stock Company may be founded by one person; there are no restrictions on the number of members. However, it is obligatory to publish an annual report in the mass media on financing and operating activities of the company if there are more than 500 stockholders, or a capital issue was allocated publicly	Participant (stockholders) contributions are made as the result of acquisition through the initial public offering of the shares of the company and their open sale	Stockholders bear a risk of loss related to the company's activity up to the value of stocks owned	Founded and operated on the basis of a foundation agreement (if there is more than one founder) and a charter
Close Joint-stock Company	Citizens and/or legal entities Founding by one person is possible Maximum number of stockholders – 50	Participant (stockholders) contributions; stocks	Stockholders bear a risk of loss related to the company's activity up to the value of stocks owned	Founded and operated on the basis of a foundation agreement (if there is more than one founder) and a charter
Cooperative Societies (commercial and non-profit)	Citizens and/or legal entities No less than 7 (seven) members of a co-operative	Share contribution (share) – a contribution by a cooperative member to the shared fund expressed in money as well as property	Cooperative members bear a risk of loss related to cooperative's activity up to the value of shared contributions	Founding agreement is signed by the members and an adopted charter is the basic instruments
Farm holdings: • legal entity; • non-corporate.	Members of the farm are considered to be spouses, children, parents, relatives and other persons jointly working together May consist of one person	The property of a farm holding belongs to its members based on the right of co-ownership if not otherwise is specified in the agreement	The members are responsible to use land effectively according to its purpose; improve soil fertility; apply modern technologies of agricultural industry; prevent environmental degradation as a result of its economic activity; implement a set of measures for land protection prescribed by the law	As a legal entity, its activity is based on a charter adopted at a general meeting of the farm holding's competent members, and an agreement defining the procedure of forming and severing the co-ownership of the legally registered farming operation. If non-corporate a farming operation is registered under the rules established for individual entrepreneurs
*All economic entities regardless of the legal organization form are required to pass state registration				

The most common legal organizational forms of legal entities in the Kyrgyz Republic

Legal forms of organization	Property liability of members	Minimum charter capital		Articles of association
Limited Liability Company	Up to their contribution to the charter capital	Not set*		They are required, if there are more than one founder
Double Liability Company	Multiple of their contribution to the charter capital Multiplier is determined by members themselves			
Open Joint-stock Company	The value of stocks owned	100,000 soms	2,045 USD	
Close Joint-stock Company		100,000 soms	2,045 USD	

Note: in actual practice, Limited Liability Companies and Double Liability Companies are founded with a charter capital of 100 or 1000 KGS (2.06-20.61 USD)

ATTENTION!

In cases determined by the law, registration of a legal entity requires prior written consent of the state antimonopoly authority.

Joint-stock Companies must register founding shares issued at State Department for financial market regulation and supervision under the Government of the Kyrgyz Republic no later than one month from the date of state registration as a legal entity. Currently, in compliance with the legislation of the Kyrgyz Republic, the notification procedure is currently working. Joint-stock Companies file a share issue notification, instead of an application for share issue registration, for the State Department for financial market regulation and supervision's reference); a state registration number is not assigned to the share issue.

Entrepreneurial activity without forming a legal entity (individual entrepreneurship)

The legislation of the Kyrgyz Republic provides for two forms of business activity as an individual entrepreneur:

1. Entrepreneurial activity is conducted based on a state registration certificate as an individual entrepreneur.

Certification of state registration as an individual entrepreneur is issued by the National Statistics Committee of the Kyrgyz Republic based on an individual entrepreneur's residence.

After registration as an individual entrepreneur it is necessary to contact the relevant offices of State Tax Inspectorate of the Kyrgyz Republic and Social Fund to be registered as a tax payer and social security contributor.

Individual entrepreneurs are obliged to keep a simplified accounting of income and expenses. Such accounts are kept in a special book of income and expenses numbered, laced, sealed, and registered with the State Tax Inspectorate of the Kyrgyz Republic.

ATTENTION!

The law of the Kyrgyz Republic provides for the possibility of business activity without forming a legal entity as an individual entrepreneur aside from business activity through forming a legal entity or its branch opening. Citizens of the Kyrgyz Republic, foreign citizens, and persons without citizenship temporarily or constantly residing on the territory of the Kyrgyz Republic may be individual entrepreneurs.

Entrepreneurial activity implementation based on a patent

Individual entrepreneurs with a patent may do their work without registration with the National Statistics Committee of the Kyrgyz Republic if this type of entrepreneurial activity is included in the comprehensive activity list enabling entrepreneurship based on a patent.

A patent is the document granted by the State Tax Inspectorate of the Kyrgyz Republic, certifying the payment of required taxes by individuals at their place of registration (residence) or their economic activity. Thus, individuals working on the basis of a patent do not report to the tax authorities but buy patent and extend its terms.

Patent validity is one month.

Patent cost varies depending on the enterprise location and type of entrepreneurial activity ranging from 100 to 70,000 KGS (2.06-1443.29 USD).

Individuals purchasing a patent do not account income and expenses of the activities specified in the patent during its validity, do not pay income tax, and do not include the income defined above in the total annual income received from the entrepreneurial activities based on registration as an individual entrepreneur.

An individual entrepreneur terminates his/her own activity on the basis of an application or a court decision. Activity termination is completed according to the norms applied to the liquidation of legal entities.

ATTENTION!

Patent granting is prescribed in voluntary and mandatory order depending on the type of business activity. But the taxing authority must stop granting patents, charge the individual entrepreneur to register as a value added tax payer and to obtain registration certificate as an individual entrepreneur when the fact of income exceeding the registration threshold for the value added tax during the calendar year is ascertained having been obtained by an individual entrepreneur engaged in business activities based on a patent (for more detailed information on registration threshold see Chapter 4).

Branches and agencies of foreign legal entities

According to the legislation of the Kyrgyz Republic branches and agencies have the rights and obligations provided to legal entities by the law of the Kyrgyz Republic including:

- opening bank accounts and making payments in any currency;
- employing local staff;
- employing foreign personnel and, therefore, obtaining work permits;
- having a permit to purchase/rent real estate;
- entering into any contractual relationship with local and foreign companies, executing obligations under agreements for payments in local and foreign currency.

The legislation of the Kyrgyz Republic also provides for a number of restrictions on branches and agencies. Thus, the duration of a branch or an agency is limited to the duration of the parent company. In addition, a branch or agency may not be granted a license for certain types of activities or delivery of certain services.

Branches and foreign companies' agencies are not legal bodies in the Kyrgyz Republic. They are given the properties of legal bodies and perform their duties according to the adopted statute.

Agencies only represent and protect the interests of a foreign legal body, making deals and other legal actions on its behalf. Branches perform all (or part of) the operations and functions of the foreign legal entity, including representative functions.

Registration of branches and agencies

Branches and agencies in the territory of the Kyrgyz Republic are subject to mandatory registration.

Branches and agencies are registered by the Ministry of Justice of the Kyrgyz Republic or its offices	A legal body must provide the following documents for registration
	<ul style="list-style-type: none"> • application for registration; • a resolution to found a branch or an agency by the authorized foreign legal entity; • legalized extract from public register, or other document certifying validity of the legal entity according to the legislation of its state; • a copy of the registration (reestablishment) certificate of the legal entity; • a permit from National Bank of the Kyrgyz Republic is required when a branch or agency of a foreign bank is founded.
	<ul style="list-style-type: none"> • registration term is 10 calendar days from the date of application with all required documents; • registration costs 9 KGS (0.18 USD)

Foreign individuals' participation

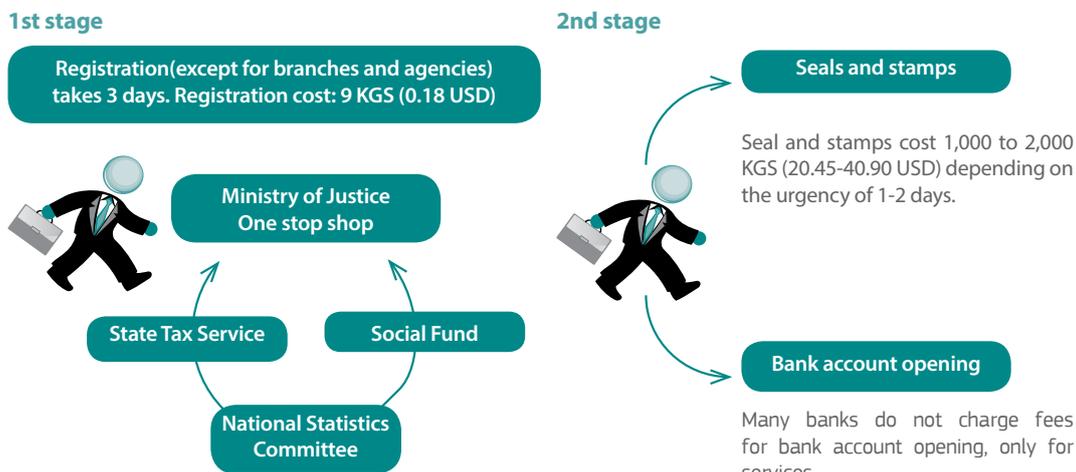

The legislation of the Kyrgyz Republic grants equal investment rights to local and foreign investors	<p>Foreign citizens in the Kyrgyz Republic enjoy the same rights and perform the same duties as citizens of the Kyrgyz Republic.</p> <p>Foreign citizens are equal under the law regardless of their origin, social and financial status, race or ethnicity, gender, educational level, language, religion, type of occupation, or other circumstances.</p> <p>Foreign investors willing to become a founder or to purchase bank stocks must receive a permit from the National Bank.</p>
Foreign investors have a number of essential legal guarantees including:	<ul style="list-style-type: none"> • export and repatriation of investment, property and information; • guarantees of protection against expropriation; • guarantees of the use of income and freedom of monetary transactions.

Creation of a commercial bank with foreign capital

Foreign founders are legal persons subject to review (registration) in the country of their origin and must additionally provide:	<ul style="list-style-type: none"> • a written consent of the relevant foreign review authority for investment in the bank under creation, if it's required under the law of the country of their origin; or • a written certification that such a consent is not required according to the law of the foreign country.
National Bank of the Kyrgyz Republic may require from the foreign company or bank willing to obtain a license (permit) to conduct banking transactions through the creation of a branch or a banking subsidiary of the foreign bank following duly legalized documents:	<ul style="list-style-type: none"> • a written consent to open a branch or a bank subsidiary opening in the territory of the Kyrgyz Republic from the relevant banking supervisor of the foreign bank or the company; or a certification that such a consent is not required by the law of that country; • a written certification of a banking supervisor of the relevant state confirming that the founding bank has obtained the appropriate banking license issued by the authorized body, and is subject to the review on a consolidated basis; • a charter or other document certifying the status of the legal entity, its financial accounting for the previous three years confirmed and certified by an independent external auditor; • a resolution of the relevant body of the founding bank regarding opening a subsidiary bank in the territory of the Kyrgyz Republic.
Commercial bank: <ul style="list-style-type: none"> • should be established as joint-stock company; • should obtain a license from the National Bank of the Kyrgyz Republic. 	<p>Charter capital of a bank should amount to 600 million KGS (12,371,134 USD).</p> <p>Time for processing application and granting a license – 6-8 months.</p>

Incorporation procedure

Incorporation procedure after completion of constituent documents	
1 stage – state registration at the offices of the Ministry of Justice of the Kyrgyz Republic.	
2 stage – opening a bank account and acquiring a seal.	
State registration (reestablishment) is made by the registering authority on the "one stop shop" principle.	
The "one stop shop" principle presupposes:	<ul style="list-style-type: none"> - state registration (reestablishment) by the registration authority along with simultaneous tax registration, and registration at the Statistics Agency and Social Fund. - state registration (reestablishment) with an assigned registration number, Taxpayer Identification Number (INN), and National Classifier of Enterprises and Organizations (OKPO code).
<p>According to the law of the KR "On state registration of legal bodies, branches (agencies)" as of February 20th, 2007, №57 after state registration (reestablishment) certification under the "one stop shop" principle, additional registration with the tax authority, the statistics authority and the Social Fund are not required. However, in actual practice the tax authority requires legal entity to register no later than 15 calendar days after state registration. Late tax registration entails an administrative penalty in the amount of 20 to 100 times the monthly minimum wage which is determined by Article 353 of the Administrative Responsibility Code of the Kyrgyz Republic.</p>	
After the Ministry of Justice's location grants State registration certificate, it will become the ground for opening bank accounts and the acquisition of a seal.	

- Documents for the registration of legal bodies are filed with the registering authority in the official language.
- The resolution of the founders of the legal entity foundation confirms that the charter capital payment (share fund) on the date of state registration has been completed (see clause 3, Article 11 of the Law of the KR "On state registration of legal bodies, branches (agencies)" as of February 20th, 2009". However, part 2 of Article 38 of the Law of the KR "On economic partnerships and companies" as of November 15th, 1996, №60 gives the right for members to pay in full an amount of charter capital defined in constituent documents within the first year of work from the date of state registration.
- There is also the procedure for preverification of titles of registered (reestablished) legal bodies, branches (agencies). (The procedure was approved by the Kyrgyz Government resolution as of August 3rd, 2011, №442)

ATTENTION!

Addresses, phone numbers, and the official websites of state authorities such as the Ministry of Justice of the Kyrgyz Republic, the Social Fund of the Kyrgyz Republic, the State Tax Service of the Kyrgyz Republic involved in work on the "one stop shop" principle are listed in the "Useful addresses and contacts" section.

Seals and stamps

All legal entities must obtain an official seal and stamp for use in official documents.

Opening a bank account.

A legal entity must open a bank account in one of the 23 registered commercial banks of the Kyrgyz Republic in order to register and fulfill its payment operations.

The fee for banking services including opening accounts, cash outlay, bank transfers, and other banking services is set independently by each bank. Requirements and documents of resident legal bodies necessary for bank account opening differs from the requirements for foreign legal bodies.

There are 3 representative offices of foreign banks in the Kyrgyz Republic.

Registration of individual entrepreneur (unincorporated)

National Statistics Committee	<p>Registration at National Statistics Committee:</p> <ul style="list-style-type: none"> • when the application is filed the statistics authority employee will begin registration of an individual entrepreneur. Generally, it takes several minutes, and the state registration certificate for an individual engaged in business activity will be issued same day; • the cost will amount to 30 to 50 KGS (0.61-1.02 USD).
State Tax Service	<p>Tax registration of individual entrepreneurs is required for tax payment to the state budget. If one is not registered at the Tax Service, one will not be able to do business freely. Moreover, registration at the State Tax Service is necessary to obtain a seal required for certification of registration from the tax authorities.</p> <p>Simplified tax system is handled through patent purchase.</p> <p>Registration is done by territory, i.e. place of residence or economic activity.</p> <p>In the case where a foreign citizen wants to do business in the Kyrgyz Republic, he/she must contact the state tax inspectorate at the place of registration in internal affairs agencies for registration of individual entrepreneurship. It is due to the fact that foreign citizens are subject to the governmental control of their business activity in the Kyrgyz Republic; they must pay taxes prescribed by the law to the state budget.</p> <p>The foreign citizen must register at the tax agencies within 15 days from the date of state registration certification of an individual engaged in business activity.</p> <p>If 10 days past the deadline, he/she must pay a fine in the amount of 10 to 20 times the minimum wage. This is provided for Articles 348, 353 of the Administrative Responsibility Code of the Kyrgyz Republic.</p> <p>In order to be registered at the state tax inspectorate one must contact the department for registration and inspection of taxpayers of the appropriate state tax inspectorate.</p> <p>The tax registration procedure should take about 2 days. The registration fee will amount to 80-90 KGS (1.64-1.84 USD) (25 KGS is the state duty for registration, 50-60 KGS are paid for forms [1.03-1.23 USD]).</p> <p>The state tax inspectorate also grants address information for seal and bank account opening.</p>

Social Fund	<p>If there is no social security certificate, one will not be able to register at the State Tax Inspectorate as an individual entrepreneur.</p> <p>In this case one must contact the Social Fund of the Kyrgyz Republic for registration and issuance of a social security certificate with assigned identification tax number. To do so, visit the Social Fund in the district of registration. Copies of following documents are required:</p> <ul style="list-style-type: none"> - a copy of state registration certificate of an individual engaged in business activity issued by statistics authorities; - a copy of passport registration page; - one folder. <p>The registration fee at the Social Fund and issuance of social security certificate with assigned identification tax number is 25 KGS (0.51 USD). The certificate is issued within 3 days.</p>
Seal and stamp	<p>If an individual registers as an individual entrepreneur and does not purchase a patent, he/she should obtain a seal and stamp. Seal registration is the following step. It's divided into several parts:</p> <ul style="list-style-type: none"> - getting a permit for making the seal; - making the seal; - registering the seal. <p>The seal registration procedure is done through the licensing system functioning under the regional departments of internal affairs and the Department of internal affairs of Bishkek.</p> <p>To get a permit for the making of a seal it is necessary to provide the following documents to the authorization system:</p> <ul style="list-style-type: none"> - application or a letter addressed to the head of a relevant department of internal affairs; - registration certificate of an individual engaged in business activity; - a copy of one's passport; - two copies of the seal and stamp design; - address reference from the state tax inspection for issuance of a permit for seal and stamp. <p>Documents must be filed with an inventory made.</p> <p>One's application is considered by the head of the department of internal affairs within 3-10 work days. When permit is issued one may start making a seal. It can be done within the licensing system or by applying to any firm engaged in this activity.</p> <p>A seal has to be round with assigned requisites. It should contain following information:</p> <ul style="list-style-type: none"> - family name, first name and patronymic of an individual entrepreneur; - individual taxpayer number; - "The Kyrgyz Republic" sign, locality of registration in Kyrgyz and Russian; - "Private entrepreneur" sign. <p>Costs for making a seal will depend on production terms. Today it amounts 1000 to 2000 KGS (20.45-40.90 USD)</p> <p>In order to receive a final seal and stamp one must bring a passport.</p>
Bank account opening	<p>Opening a current account (this step is up to the entrepreneur; if non-cash payments are to be utilized it is necessary to open a current account).</p> <p>Generally, banks in the Kyrgyz Republic do not charge fees for opening a bank account, only for services.</p>

The legal basis of making and doing business

- The Constitution of the Kyrgyz Republic, Article 42 (June 27th, 2010);
- The Civil Code of the Kyrgyz Republic, part I, as of May 8th, 1996 (with latest amendments of July 12th, 2011);
- The law of the Kyrgyz Republic "On joint-stock companies" as of March 27th, 2003 (with latest amendments of October 5th, 2011);
- The law of the Kyrgyz Republic "On state registration of legal bodies, branches (agencies)" as of February 20th, 2009;
- The law of the Kyrgyz Republic "On banks and banking activity in the Kyrgyz Republic" №60 as of July 29th, 1997;
- The law of the Kyrgyz Republic "On licensing" №12 as of March 3rd, 1997;
- The law of the Kyrgyz Republic "On cooperative societies" as of June 11th, 2004, № 70;
- The law of the Kyrgyz Republic "On farm holdings" as of June 4th, 1999, № 47;
- The law of the Kyrgyz Republic "On economic partnerships and companies" as of November 15th, 1996, №60.

ATTENTION!

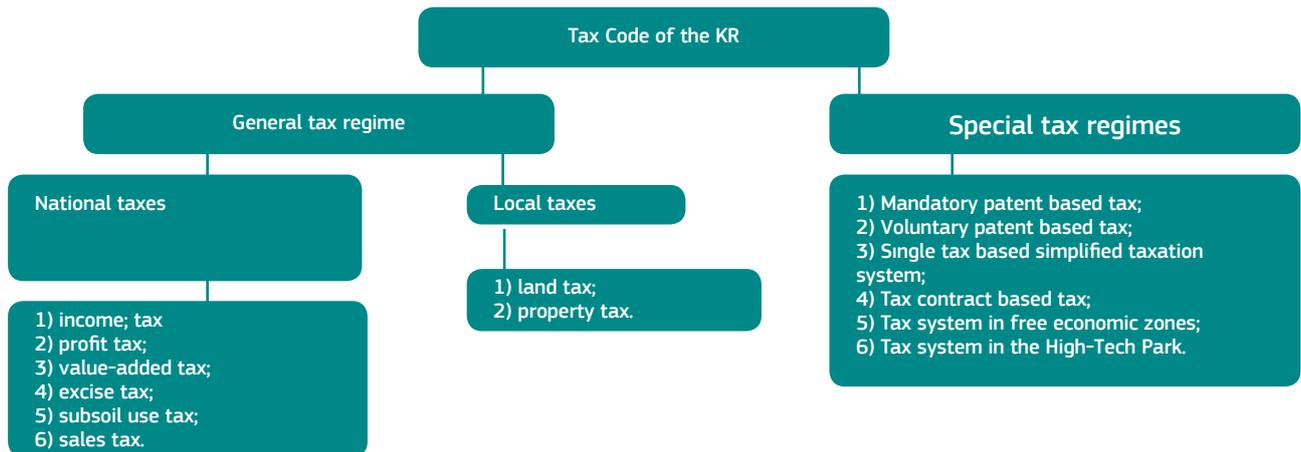

Today the services of individual firms are available for help with state registration of an enterprise in the Kyrgyz Republic. The cost of the services is generally about 200 to 1,500 USD (9,640-72,200 soms) depending on the form of the enterprise.

3. Taxes and social insurance contributions

The current Tax Code of the Kyrgyz Republic entered into force on January 1st, 2009. The main principles of the reformed Tax Code are: obligation, predictability and equitability in taxation to bring about unity and efficiency within the tax system for the purpose of the stability of the tax regime for investors. According to the new Tax Code the following tax regimes are enforced in the Kyrgyz Republic: a general taxation system and a system of special tax situations.

These regimes include the following taxes:

National taxes are imposed by the Tax Code and payment is compulsory throughout the territory of the Kyrgyz Republic.

Taxes for special situations

Along with general taxation TC KR provides special tax regimes for certain categories of taxpayers including the following taxes:

Mandatory patent based tax - Chapter 53 TC KR	
Payers	The mandatory patent based tax is used in place of the profit tax, VAT, and sales tax. It is paid on a compulsory basis only in respect to the following activities: services provided by saunas, baths-houses (except municipal bath-houses); billiard services, currency exchange services, discotheque services, 24- hour parking services, pawn shop services, services provided by hairdressing and beauty salons, private dental services, billboard rental services, game machine and book makers services.
Rate	For saunas and baths-houses with the area up to 150 m ² – 30,000 KGS, more than 150 m ² – 50,000 KGS; billiard services: 1 table -10,000 KGS, currency exchange services: 1 licensed facility – 20,000 KGS; services of discos and night clubs: per 1 disco bar, nightclub, 100,000 KGS, 24- hours parking services: 1 parking space - 100 KGS; pawnshop services: 1 object -15,000 KGS, hairdressing and beauty salons services: per one chair – 2,000 KGS, private dentist services – per a chair – 5,000 KGS, billboard rental services: one billboard – 5,000 KGS, book maker or totalizator services: 1 bet acceptance point (box office) – 20,000 KGS.
Voluntary patent based tax - Chapter 54 TC KR	
Payers	The tax based on a voluntary patent replaces the profit tax and sales tax, and can be used solely by individuals who are not VAT payers, as well as organizations producing and selling garments, knitwear, and footwear, and only for activities listed by the GKR.
Rate	Basic rates of voluntary patent based tax determined by the Government of the KR (See www.sti.gov.kg - Information for taxpayers – Amount of tax for taxpayers operating on the basis of voluntary patent).

Note: To calculate the special tax rates take into account that the rate in USD was calculated using the NBKR's exchange rate of 48.8405 on 01.07.2013

IMPORTANT!

- In determining the voluntary patent based tax rate for foreign citizens and individuals without citizenship a coefficient equal to 5 will be applied, in accordance with the Decree “on approval of the basic rate of voluntary patent based tax depending on type of business” of the Kyrgyz Republic dated 30th of December 2008 N 733.
- In accordance with Article 346 of the Tax Code of the Kyrgyz Republic, payers of the voluntary patent based tax who are involved in other activities that fall outside of that voluntary patent must use a separate tax method.

Single tax based simplified taxation system - Chapter 55 TC KR	
Single tax	Instead of profit tax and sales tax.
Payers	Small business entity (legal entity, individual entrepreneur) not a VAT payer and having no more than 30 employees.
Not applicable to:	Patent based taxpayers, providers of financial or insurance services, investment funds, professional participants in the securities market (brokers); payers of excise tax.
Duties	1) keeping the tax records in accordance with cash basis accounting; 2) using the Fiscal Cash Register when conducting cash operations with the general public.

Tax contract based tax - Chapter 56 TC KR	
Payers	Entity performing an economic activity for the period of at least 3 years or the company carrying out catering activities for more than 3 months, which have signed a contract with the Tax authority on a fixed tax amount for the following calendar year instead of: 1) the income tax, and 2) VAT on supplies, and 3) sales tax.
Not applicable to:	Patent based taxpayers, providers of financial or insurance services, investment funds, professional participants in the securities market (brokers), payers of excise tax and subsoil use tax, those whose taxes are in arrears, and entities engaged in economic activity for less than 3 years (except caterers who qualify unless they have been operating less than 3 months).
Rate	The amount of tax liability according to the contract is accepted as follows: - the first year of the contract - not less than 25% of the maximum amount of tax liability for the three preceding years; - the following years - at least 10% of the amount of tax liability for the preceding calendar year.
Deadline for filing tax return	After getting approval from the relevant tax authority, the respective tax organ concludes a contract with the taxpayer within 15 working days from the day following the approval date.
Deadline for tax payment remittance	Monthly, by the first working day following the 15th day of each month in the amount indicated in the contract.

The tax regime in free economic zones - Chapter 57 TC KR	
Payers	Entities registered with the General Directorate of the FEZ and manufacturing then selling or exporting services/goods only within the territory of FEZ (to the FEZ entities).
Benefits and exemptions	FEZ subject exempted from all taxes, except for: 1) taxes payable at source; 2) property tax.

The tax regime of the High-Tech Park – Chapter 59 TC KR	
Payers	Residents of the High-Tech Park.
Benefits and liability exemptions	Exempt from income tax, sales tax, and value added tax; benefits: reduced income tax rate for employees - 5%.

ATTENTION!

Tax Code provides provisions of benefits and exemptions from payables for each type of tax, which is described on the website of State Tax Inspection www.sti.gov.kg - "Knowledge base – Taxation –Benefits and exemptions from payments".

Subjects of taxation

Legal entities

For tax purposes Legal entities are divided into domestic and foreign organizations	
Domestic organizations are defined as legal entities established in accordance with the laws of the Kyrgyz Republic	Foreign organizations are defined as corporations, companies, firms, foundations, agencies or other entities created in accordance with the laws of foreign states or international organizations.

Foreign organizations, in turn, are subdivided into foreign organizations operating through a permanent establishment in the Kyrgyz Republic and those, which do not have permanent establishment in the Kyrgyz Republic	
Foreign organizations performing activities through a permanent establishment become a taxpayer under the same terms as domestic entities, usually through the establishment of a subsidiary legal entity, either through the registration of a branch or representative office.	Foreign organizations that do not have a permanent establishment but receive income from a source located within the territory of the Kyrgyz Republic have separate rates, and do not receive benefits and deductions. In this case a natural or legal person giving income to a foreign company must assess, withhold, and transfer the accrued amount of tax, due to the budget, on received income from a Kyrgyz source, with no deductions at the following rates: - insurance payments received under insurance agreements or reinsurance of risks (except obligatory insurance), revenues from telecommunications and transport services in international relations and trade between the Kyrgyz Republic and other countries- 5%; -dividends and interest (except interest yields from securities held in Blue chips and Start-up categories of the Kyrgyz Stock Exchange Listing), insurance payments or reinsurance risks under the compulsory insurance agreements, copyright royalties , royalty , fees for management, consulting, and other services and work - 10%.

Natural persons

Natural person is a citizen of the Kyrgyz Republic, foreign citizen or a person without citizenship.	
A resident natural person is an individual physically present in the territory of the Kyrgyz Republic for 183 days or more during the previous consecutive 12 months or sent on public service for the Kyrgyz Republic abroad.	A non-resident natural person is an individual who is not recognized as a resident natural person.

Individual entrepreneurs

Individual entrepreneur means:	
A resident natural person who is a taxpayer in accordance with the Tax Code, performing business activities without establishing a company, including patent based activities.	Non-resident natural person conducting their business through a permanent establishment in the Kyrgyz Republic.

Social insurance contributions

The state social insurance includes:

General and obligatory social protection of insured persons; responsibility of the insured persons in direct involvement in the execution and financing of their social security; equality and legal protection of the state social insurance entities.

Legal entities and natural persons hiring labor are required to be payers of social contributions. In this case, the employer is liable to pay the insurance contributions from total amount of the wages, and employees from gross remuneration.

The relevant state authority regulating insurance payments is the Social Fund of the Kyrgyz Republic.

ATTENTION!

Address, phone numbers, and official website of Social Fund of the Kyrgyz Republic are specified in the «Useful addresses and contacts» section.

Insurance contributions	
Payers	a) the legal entity, regardless of their legal form of ownership, their subdivisions (branches and representative offices); b) peasant farming and farmer enterprises; a) natural persons.
Rates with respect to employer:	1. monthly 17.25% of the gross pay of each hired employee: to the Pension Fund - 15%; to the Obligatory Health Insurance Fund - 2%; and to the Employees Healthcare Fund - 0.25%; 2. monthly 15.25% of all payments to disabled employees of the first and second groups: to the Pension Fund - 15%; to the Employees Healthcare Fund - 0.25%; 3. monthly 3% of the total amount of the retained employee`s accrued gross remuneration for foreign citizens and persons without citizenship temporarily residing in the Kyrgyz Republic or residing in another country, but being in an employment relationship with a legal entity registered in the Kyrgyz Republic to be paid to the solidarity obligation portion of the Pension Fund; 4. 15.25% on gross payroll of each staff of embassies, consulates and other diplomatic missions of the Ministry of Foreign Affairs of the Kyrgyz Republic.
With respect to employee:	1. for workers retained to perform permanent or temporary work - 10% of types of payments to them, to the Pension Fund - 8%; to the State Accumulation Pension Fund - 2%; - for retiree employee - 8%, to the Pension fund; - for hired employees (men born before January 1, 1964, and women born before January 1, 1969) - 10%, to the Pension fund; 2. for disabled employees of the first and second groups (except disabled veterans of World War 2 and persons equated to them) - monthly 2% of the total amount of all payments to employee, regardless of the source of funding, due to the Pension fund .
For Individual Entrepreneurs	Monthly at a rate of 9.25% of the average monthly salary: to the Pension Fund -8%; to the Obligatory Health Insurance Fund - 1%; to the Employees Healthcare Fund - 0.25%.
Deadline for submission tax return and payment of contributions	Monthly, by the 15th day of the month following the reporting period.
At a rate of 25% of the value of the patent	For natural persons performing individual entrepreneurial activities based on patent.
At a rate of 30% of the value of the patent	For foreign citizens and individuals without citizenship temporarily residing in the Kyrgyz Republic, performing activities based sole proprietorship.

Double tax treaties

In order to avoid the payment of the same taxes in different countries, the Tax Code of the Kyrgyz Republic provides the opportunity for the elimination of double taxation. (Currently effective) Resolutions for the implementation of agreements (treaties) for the avoidance of double taxation and the prevention of taxes on income and on capital (assets) signed by the Kyrgyz Republic and foreign countries was approved by Government Decree of the KR dated May 15, 2012 N 298.

Tax supervision

Tax supervision is defined as an oversight and control of the executive tax services' compliance with the tax legislation of the Kyrgyz Republic.

Tax supervision SECTION IV TC KR

Tax supervision is performed in the following forms:

- 1) tax registration and recording registration of a taxpayer;
- 2) recording tax inflows to the budget;
- 3) desk tax audit;
- 4) field tax audit;
- 5) tax desk establishment.

Tax registration of taxpayer

According to the provisions of tax legislation of the Kyrgyz Republic all individuals and entities having liability for taxation are required to register as a taxpayer

Tax Registration of taxpayer is made on the basis of:	1) a completed registration application form; 2) based on information and evidence provided by authorities about tax evasion.
Deadline for registration	No later than 15 calendar days following the state registration date as a legal entity.
The place of tax registration:	1) for the national organizations – legal entity state registration office; 2) for natural persons not having the status of individual entrepreneur - the place of residence/place of registration as shown in their Kyrgyz passport; 3) for individual entrepreneurs – the place of residence/place of registration as shown in their Kyrgyz passport.

Recording registration of a taxpayer

Account registration of the taxpayer is issued after passing the tax registration in the following cases:

For organization and Individual Entrepreneurship:	a) at the place of a separate division – establishment, liquidation, or change of location of mentioned separate division; b) at the location of the object of taxation - change of the structure of taxable objects.
For an individual entrepreneur, performing activities on the basis of patent	At the place of business, if it is outside the place of tax registration.
For natural person	At the location and /or registration of taxable objects.

Tax audits

Tax audits are carried out solely by the tax service authorities and are divided into the following types:

- 1) Field audit (routine, unplanned, cross-tax checking, re-inspection);
 - 2) Desk audit;
- Plan of audits consists of two sections:
- 1) Selection is made in from all taxpayers, selected based on results of a risk analysis of the possibility of tax evasion using data mining methodology. The document is restricted and publication is not permitted.
 - 2) Selection based on a method of random selection from all taxpayers, not exceeding more than 5% of the total number of taxpayers. Subject to mandatory placement on the official website of the STI and published in hard copy with free access provided in the offices of corresponding tax authorities.

Time	Unlimited.
Number of inspectors	Unlimited (number and details of inspectors are indicated in prescription).
Basis	Prescription by the head (or deputy head) of the appropriate tax authority .

Tax administration

Today the State Tax Inspection is making significant efforts to reform and modernize the tax administration.

One of the innovations: the introduction of a 'one-stop-shop' registration procedure, call-center, e-filing of tax returns, and an information portal (www.sti.gov.kg).

One-stop shop

The principle of 'one-stop-shop' has been implemented and currently operates in 28 tax service offices throughout Kyrgyzstan. 'One-stop-shop' is intended to improve the relationship with taxpayers, to facilitate the registration process and the submission of tax returns, and making payments. At the 'one-stop-shop' tax returns, reports, and calculations are accepted; patents, different kinds of certificates at the request of taxpayers, and invoices for VAT are issued; and reports on the invoices are accepted. The system of 'one-stop-shop' involves the State Tax Inspection of the Kyrgyz Republic, the Social Fund of the KR, the National Statistical Committee of the KR, as well as offices of commercial banks for customer service.

ATTENTION!

The central office of State Tax Inspection has opened an Information Service for Taxpayers--Call-center- 194, where you can obtain accurate and timely information in the field of tax law. Working hours: Monday-Friday, from 9:00 to 18:00.

Online filing of tax returns

E-filing of tax returns - is the submission of tax and accounting returns online without duplicating in hard copy or visiting the state tax authority. According to the law of the KR "On Electronic Document and Digital Signature" dated July 17, 2004 N 92, an electronic document can be used by natural persons and legal entities in all spheres of activity. Tax returns, received by the tax office in electronic format are legally accepted as valid. And the taxpayer submitted documents in electronic version will get a confirmation upon receipt and will be released from duplicating it in hard format. All information transmitted to the tax authorities, should be executed in a secure and encrypted form and signed by electronic signature. Electronic digital signature (EDS) – is part of electronic document intended to protect the electronic document from forgery and distortion of the contained information, allowing identify the author of the document to be identified. EDS is an analogue of the authorized signature and stamp of organization on paper documentation. Submission of tax returns electronically without digital signature and free of charge for VAT-exempt entities through the official website of the State Tax Inspection is permitted according to the "Regulation on the procedure for submitting tax returns online without digital signature", approved by Government of the KR dated August 6 2013 N 453.

Electronic reporting is available 24 hours a day, 7 days a week!

In order to use the E-submission of tax returns, you may contact the related State Tax Inspections or the service operators.

4. Labor legislation

The labor legislation of the Kyrgyz Republic determines the minimum conditions allowed attempting to balance the interests of the employer and employee, the state, as well as establishing principles for the legal regulation of labor and other relations directly linked with them. It additionally covers welfare issues. It highlights basic legal issues regarding labor and basic working conditions required by the legislation of the KR, which includes a number of regulatory legal acts, the most important of them are shown below.

Legislation framework

Regulatory legal act	Regulatory activity issues
Labor Code of the KR (Put into effect by the Law of the KR dated August 4, 2004 N 107)	Regulates labor relations based on a labor contract, as well as: relations connected with professional employment training and advanced vocational training; union or other representative bodies activities in protection of the employees' rights; the activities of the employers' association through the regulation of social and labor relations; collective bargaining rights; the making of collective bargaining agreements and accords; mutual relations between employees and employers at the organizational level; employment, monitoring, and oversight for compliance with labor legislation; work safety; and the consideration of individual and collective employment disputes.
Civil Code of the KR (Put into effect by the Law of the KR dated May 8, 1996 N 16)	Determines the legal status of the parties to a business transaction, the basis for the origin of and procedure for the exercise of the right of ownership and other interests in real property, exclusive rights to the results of intellectual activity, the means of identification appropriate for them, regulating contractual and other obligations, as well as other property and related personal non-property relations.
Law of the KR "Labor Protection" (dated August 1, 2003 N 167)	National statutory work safety requirements in the laws and other regulatory legal acts of the Kyrgyz Republic on work safety which establishes rules, procedures, and criteria for the purpose of protecting the life and health of the employees in labor activities.
Law of the KR "On External Labor Migration" (dated January 13, 2006 N 4)	Establishes the exit procedure for citizens of the Kyrgyz Republic for the arrangement of labor abroad, employment of foreign nationals in the Kyrgyz Republic, and determines legal protective norms, and regulates the business arrangements of migrant workers.
Law of the KR "On social partnership in the sphere of labor relations in KR" (dated July 25, 2003 N 154)	Establishes the legal basis of organizations functions, strengthening and developing a system and mechanism for the social partnership in the sphere of labor relations in the Kyrgyz Republic with the purpose of regulating social-labor and associated with them, economic relations and the achievement of public consensus.
Provision on procedure of the labor activity by foreign citizens and persons without citizenship in the territory of the KR (dated September 8, 2006 N 639)	Specifies the conditions and procedure for labor activity by the foreign citizens and persons without citizenship in the Kyrgyz Republic.

IMPORTANT!

The Labor Code, laws, and other labor and employment statutes protections are extended to foreign citizens and persons without citizenship working in organizations in the territory of the KR, unless otherwise established by a statute.

Basic labor conditions required under legislation of the KR

Normal working hours	No more than 8 hours a day or 40 hours a week
Duration of probation period	No more than 3 months
Payment for work period	No less than one time a month
Payment for work performed on overtime, holidays and days off	No less than at double rate
Payment for work at night (22:00 – 06:00)	No less than at one and a half rate
Severance pay (following termination of the labor contract by of the employer's initiative)	In the amount of at least average monthly wage

Payable annual leave	No less than 28 calendar days, paid in the amount of at least average monthly wage
Duration of the first part of a leave	No less than 14 calendar days
Paid pregnancy and maternity leave	70 calendar days prior to maternity and 56-70 calendar days after maternity with welfare payment by national insurance

Types of working week in accordance with working hours

5-day(40-hours) work week	8-hour work day and 7-hour pre-holiday work day
6-day (40-hours) work week	7-hour work day and 5-hour pre-holiday work day, as well as 6-hour pre-holiday work day (if on Saturday - 4-hours)
36-hour workweek	6-hour work day and 5-hour pre-holiday work day
24-hour work week	4-hour work day and 3-hour pre-holiday work day

Holiday (non-working) days

Non-working holidays in the Kyrgyz Republic:	
January 01	New Years Day
January 07	Christmas (Orthodox Christmas)
February 23	Defender of the Motherland Day
March 08	International Women's Day
March 21	National holiday Nooruz
May 01	Labor Day
May 05	Constitution Day of the Kyrgyz Republic
May 09	Victory Day
August 08	Orozo Ait (determined by lunar calendar so it changes each year)
August 31	Independence Day of the Kyrgyz Republic
October 15	Kurman Ait (determined by lunar calendar so it changes each year)
November 07	The Great October Socialist Revolution

Engagement of foreign labor in the Kyrgyz Republic

Businesses engage foreign employees at work for different reasons. Further, businesses should take into account the fact that not acquiring of the required permits can result in significant material and ethical losses both for an employer and a foreign employee.

According to the legislation of the Kyrgyz Republic, foreign citizens and persons without citizenship have the right to carry out labor or entrepreneurial activity in the territory of the KR upon availability of a permission to work. In its turn, employers have the right to engage and use the foreign labor in KR only upon permit to engage foreign labor.

Provision "On procedure for labor activity in the territory of the KR by foreign citizens and persons without citizenship" approved by Decree of the Government of the Kyrgyz Republic dated September 8, 2006 № 639 provides two types of permits:

Permit for foreign labor engagement	Labor permit
Standard document granting the right to legal entities and natural persons to engage and use foreign labor in the territory of the KR ("Permit for employee"). Application will be considered for 1 month.	Standard document confirming the right of foreign citizens or persons without citizenship to carry out labor or entrepreneurial activity in KR ("Permit for employee"). Permits to employees are issued to persons who have reached the age of 18 years. Application will be considered for 1 month.

Legislation of the KR establishes different terms of permits for different categories of the foreign employees. For example, the permit for a foreign qualified employee is issued for a term of no more than two years, for a foreign individual entrepreneur – no more than 3 years, and the permit for a foreign specialist and all other citizens – for 1 year with a right to annual renewal.

The permits mentioned above are issued on a fee paid basis according to the price list:

Term of duration and cost of permits for foreign workers

Serial №	Type of activity	Levying periodicity	Price (KG soms)	For citizens of Eurasian Economic Cooperative member-states with whom the Kyrgyz Republic has bilateral or multilateral agreements regarding labor migration granting reciprocal rights(KG soms)
1	Issuance of permit for foreign labor engagement	Once a year	4,000	4,000
2	Issuance of a labor permit	Once a year	2,000	1,000
3	Issuance of a labor permit for persons carrying out individual labor activities	Once a year	20,000	1,000
4	Issuance of a permit for the right to employ the citizens of the Kyrgyz Republic abroad	Once a year	4,000	4,000

IMPORTANT!

If you have any questions regarding the engagement of foreign nationals please feel free to contact the authorized body for the issuance the permits which is the Ministry of Labor, Migration and Youth of the KR. The permits are issued by the Ministry of Labor with dividends which are annually fixed by the Government of the Kyrgyz Republic (Contact details are shown in "Useful information" section)

Engagement of staff

Staff recruitment is the core service offered by recruiting agencies. Cost of recruiting agencies' services is 1,000 KG soms for the review of database and selection of a particular specialist. If the employer wants to change the position during the probation period, he pays 30% of the wage rate of the position liquidated. Recruitment services are rendered on the basis of advance payment.

Average monthly salary in the sphere of labor as of July 1, 2013

Serial №	Economic activity	KGS	USD
1.	Agriculture, hunting, and forestry	6,102	125
2.	Fisheries and aquaculture sectors	5,485	113
3.	Mining industry	17,911	368
4.	Processing industry	11,709	241
5.	Electric energy, gas, and water production and distribution	16,737	344
6.	Construction	10,691	220
7.	Trade; repair of cars, household goods and personal demand items	13,138	270
8.	Hotels and restaurants	9,194	189
9.	Transport and communication	18,583	382
10.	Financial activity	25,832	531
11.	Real estate operations, renting, and rendering of services to the consumers	13,957	287
12.	State administration	13,194	271
13.	Education	8,418	173
14.	Healthcare and social service	9,574	197
15.	Rendering of municipal, social and personal services	7,986	164

5. Legislation regarding subsoil, land use, and environmental protection

In this section entrepreneurs will get the most significant information necessary for compliance with legislation regarding environmental security and protection, as well as the maintenance of the subsoil and land use process. The information is reduced to the following subsections:

- 1) Legislation on subsoil use
- 2) Environmental protection legislation
- 3) Land use legislation

Each of the subsections reflects the basic legislation and other regulations governing these spheres of legal relationship in the country.

Legislation on subsoil use

Legal document	Regulations
The law of the Kyrgyz Republic "On Subsoil" (August 9 th , 2012, N 160)	It determines the order of state legal regulation, the domains of state authorities, local state administrations and local governments, the rights and duties of individuals and legal entities, as well as the penalties for violation of the legislation of the Kyrgyz Republic in the sphere of subsoil use.
The law of the Kyrgyz Republic "On mountainous areas" (November 1 st , 2002, N 151)	The law attempts to create a socio-economic and legal framework for the sustainable development of mountainous areas of the republic as well as the conservation and sustainable use of natural resources and of historical, cultural, and architectural heritage.
The law of the Kyrgyz Republic "On Production Sharing Agreements in Subsoil Use" (April 10 th , 2002, N 49)	The law establishes the legal framework of relations arising in the implementation of domestic and foreign investment in prospecting, exploration and development of mineral deposits on the territory of the Kyrgyz Republic on the basis of production sharing agreements.
The law of the Kyrgyz Republic "On Coal" (February 3 rd , 1999, N 18)	The law governs relations between government, individuals and legal entities, as well as foreign countries, occurring around the production and use of coal on the territory of the Kyrgyz Republic.
The law of the Kyrgyz Republic "On Oil and Gas" (June 8 th , 1998, N 77)	The objectives of the law are the establishment of a legal framework in line with international standards to ensure economic efficiency, reliability, and security of operations and activities of the organizations in the oil and gas industry, the protection of consumers and producers, and the creation of favorable conditions for attracting investment in the oil and gas industry for an intensive increase of its production.

The state body in charge of the sphere of subsoil use and development of the mining industry is the State Agency for Geology and Mineral Resources of the Government of the Kyrgyz Republic. This government body is responsible for carrying out state policy in the field of subsoil use and issues licenses for this activity. Licensing is required for all types of subsoil such as the use of mineral resources, fresh water, mineral and thermal groundwater, except for the granting of subsoil use rights under a concession contract and production sharing agreement, as well work performance on the basis of state registration.

The process for obtaining a license, the list of required documents, and licensing procedures are described in detail on the website: www.geology.kg - Licensing - The process of obtaining a license. The cost of public services for the license is paid by all economic entities which are described in detail in "The procedure and the cost of obtaining licenses, permits, patents and trademarks" section.

Subsoil use permits are provided for:

- 1) geological surveys;
- 2) development of mineral deposits, including man-made ;
- 3) construction and operation of underground facilities not related to mining (storage of oil, gas and other substances and materials, disposal of hazardous substances, use of geothermal energy, and other needs);
- 4) formation of specially protected objects having scientific, cultural, aesthetic, sanitary, recreational or other value (research and training areas, geological preserves, caves and other underground cavities). Subsoil users are individuals and legal entities of the Kyrgyz Republic and foreign countries.

Environmental protection legislation

Legal document	Regulations
The law of the Kyrgyz Republic "On Environmental Protection" (June 16th, 1999, N 53)	It establishes a legal framework of environmental protection, ensures the real use of natural resources, and it is a complex piece of legislation for direct action. In addition, this law governs the relationship between public associations and state authorities, their rights and responsibilities.
The law of the Kyrgyz Republic "On Ecological Expertise" (June 16th, 1999, N 54)	It is aimed at the realization of the constitutional right to a healthy environment by preventing negative consequences occurring as a result of the implementation of economic and other activities; it governs legal relations in the field of environmental impact assessment. In the Kyrgyz Republic there are two types of environmental impact assessments: state environmental examination and public environmental examination.
The law of the Kyrgyz Republic "On Water" (January 14th, 1994, N 1422-XII)	It governs relations in the sphere of water resources (water) use and the protection and prevention of the environmentally damaging effects on water bodies and water facilities from economic and other activities, the improvement of water bodies and facilities condition, and the enforcement of the law in the field of water relations.
The law of the Kyrgyz Republic "On Specially Protected Natural Areas" (May 3rd, 2011, N 18)	It regulates relations in the field of organization, protection, and use of specially protected areas for conservation of standard and unique natural complexes and objects, cultural heritage of natural formations, genetic diversity of flora and fauna, and the study of natural processes in the biosphere and monitors changes in its state.
Forest Code of the Kyrgyz Republic (July 8th, 1999, N 66)	It establishes legal basis for the rational use, protection and reproduction of forests, increasing their ecological and resource potential.
The law of the Kyrgyz Republic "On Radiation Safety" (June 17th, 1999, N 58)	It defines legal relationships in the field of radiation security of the population and environmental protection from the harmful effects of sources of ionizing radiation, governs interagency and inter-sector collaboration.
The law of the Kyrgyz Republic "On Production and Consumption Waste" (November 13th, 2001, N 89)	It determines state policy in the field of production and consumption waste and is intended to contribute to the prevention of a negative impact from production and consumption waste on the environment and human health when handling them, as well as maximizing their utilization in economic production as an additional source of raw materials.
The law of the Kyrgyz Republic "On Tailings and Mining Waste Dumps" (June 26th, 2001, N 57)	It aims to provide security for current and future generations of people and their environment when dealing with tailings and mining waste dumps. Defines the principles of state policy in the field of tailings and mining waste dumps.
The law of the Kyrgyz Republic "On Industrial Safety of Hazardous Production Facilities" (November 19th, 2001, N 93)	It defines legal, economic, and social framework for ensuring the safe operation of hazardous production facilities, and it is aimed at preventing accidents and ensuring preparedness of organizations operating such facilities to locate and eliminate the consequences of an accident.
The law of the Kyrgyz Republic "On Fishery" (June 25th, 1997, N 39)	It regulates the legal, economic, and organizational basis of fisheries of the Kyrgyz Republic with a view toward the utmost development and conservation of fish stocks, increasing the fish production of water bodies and ponds, in order to fully meet the needs of the population in fish products.
The law of the Kyrgyz Republic "On Wildlife" (June 17th, 1999, N 59)	It governs relations in the sphere of protection and reproduction of wildlife, and it's aimed at the rational use of wildlife.
The law of the Kyrgyz Republic "On the Protection of Flora" (June 20th, 2001, N 53)	It regulates relations in the sphere of protection and reproduction of flora, and is aimed at the rational use of flora.

The government body responsible for implementing unified policy in the field of environmental protection is the State Agency on Environment Protection and Forestry under the Government of the KR. That body is responsible for the conservation of biodiversity, rational environmental management, and the development of the forestry and hunting sectors while providing environmental security for the government within the frames of its competency.

The state body responsible for supervising the environmental and technical safety is the State Inspection for Environmental and Technical safety under the Government of the KR.

ATTENTION!

Addresses, phone numbers, and contacts for the relevant agencies mentioned above are specified in the «Useful addresses and contacts» section.

Special use of natural resources is fee based.

Charges for nature management consist of fees for the use of natural resources, payments for environmental pollution and other negative impacts on the environment.

The fee for use of natural resources is established for use of natural resources within the specified limits and for the excessive use of natural resources and is paid to the state budget in accordance with established procedures, and is used for activities for environment protection

and improvement. The amount of the payment is determined by the type, purpose and scope of the use of flora and fauna based on location, biotic productivity of areas and other environmental factors in accordance with the law of the Kyrgyz Republic "On Fee Rates for the Use of Fauna and Flora in the Kyrgyz Republic" of August 11th, 2008, N 200

Fees are charged for pollution – emissions, discharges of pollutants, waste disposal and other types of pollution that have a negative impact on the nature.

Fees for emissions, discharges of pollutants, waste disposal are transferred by legal entities and individuals indisputably to special accounts of state extra budgetary funds for environmental protection.

Rates and standards of charges for nature management are developed and approved by the Parliament of the Kyrgyz Republic – the Zhogorku Kenesh.

Paying for nature resources does not relieve the user of nature from the implementation of measures for environmental protection, compensation for damages caused by violations of environmental laws, or prosecution for the offense.

The rate of payment for environmental pollution (emissions, discharges of pollutants, waste disposal) is 1.2 KGS per ton of pollutants.

Measures aimed at environmental protection

Protection measures	Protection measures Terms of realization
The legal framework developed in the Kyrgyz Republic regulates environmental and wildlife conservation issues.	Since 1999
A new edition of the Red Book of the Kyrgyz Republic is published; it includes an updated list of 207 rare and endangered species of animals and plants.	2007
The State Agency for Environment Protection and Forestry under the Government of the Kyrgyz Republic and the state environmental control services of the structural units of the State Agency in order to prevent environmental pollution is inspecting economic entities for dust filters, Environmental Action Plan performance, and compliance with established standards for maximum permissible emissions.	Regularly
The Kyrgyz Republic has signed and ratified 12 international environmental conventions and 3 protocols. Executive Body to 11 international conventions is the State Agency on Environment Protection and Forestry under the Government of the Kyrgyz Republic (the Kyrgyz Government Executive Order as of January 16th, 2006, № 13-r). The Ministry of Agriculture and Melioration of the Kyrgyz Republic is assigned as Executive Body to Convention for Combat Desertification (the law on accession of the Kyrgyz Republic as of July 21st, 1999, № 85).	Since 1995 till present times

Land use legislation

Legal document	Regulations
Land Code of the Kyrgyz Republic (Introduced by the law of the Kyrgyz Republic as of June 2 nd , 1999, N 46)	It governs land relations in the Kyrgyz Republic, the grounds of the creation, the order of implementation and termination of rights to land and its registration, and aims to create land market relations in state, municipal and private land ownership, and promote the rational land use and its protection.
The law of the Kyrgyz Republic "On Agricultural Land Management" (January 11 th , 2001, N 4)	It regulates the legal relationship of agricultural lands management and aims to ensure the effective and safe use of the land for the people.
The law of the Kyrgyz Republic "On Transfer (transformation) of Land" (July 15 th , 2013, N 145)	It defines the legal basis, conditions and the procedure of transfer (transformation) of land from one category to another.

The State Registration Service of the Government of the Kyrgyz Republic is a state executive authority which provides functions for the implementation of state policy in the area of rights on property (and land relations connected with it) within the powers granted to it. The Department for Cadastre and Registration of Rights on Property is a subdivision of the State Registration Service of the Government of the Kyrgyz Republic which maintains the land cadastre, cadastre mapping, registration of rights on property and provides state protection for the rights to real estate (Contact details of both state agencies are specified in the "Useful contacts and addresses" section).

Land use in the Kyrgyz Republic is paid by all legal entities and individuals. Tax must be paid in accordance with the tax legislation of the Kyrgyz Republic (See "Taxes and social insurance contributions - Land Tax" section)

Land charges are paid in the form of rent for land, except for pastures. Rental fees for land and its payment are established for the land user who has received the right to use the land under a lease, except for pastures, according to the contract.

The cost of public services provided at registration of land management files and issue of legal documents for land

№	Title	Time rate, person/hour	Price, KGS	USD
1	Application and documents receipt	0.33	13.13	0.269
2	Visit of a specialist to the place of fieldwork	1.5	59.70	1.223
3	Drafting work orders	0.16	6.37	0.131
4	Selection of archive files	0.16	6.37	0.131

5	Drawing up an act of matching land boundaries	0.5	19.90	0.408
6	Adding information to the real estate database	0.16	6.37	0.131
7	Archive files reception	0.08	3.18	0.065
8	Documents issue	0.08	3.18	0.065
9	Drawing up an act on land allocation for individual apartment house	1.0	39.80	0.816

Note: To calculate the costs of public services rendered in the design of land-surveying affairs and issuing legal documents for plots take into account that the rate in USD was calculated using the NBKR's exchange rate of 48.8405 on 01.07.2013.

ATTENTION!

Cost of services provided to land users by territorial authorities of Department for cadastre and registration of rights on property of the State Registration Service under the Government of the Kyrgyz Republic is specified on the website: www.gosreg.kg - "Information on provided public services - Prices for work performed by the territorial authorities of Department for cadastre and registration of rights on property".

6. Licenses and permits. Patents and trademarks

Licenses

Licensing and permitting of activities in the Kyrgyz Republic is regulated by a new law of the Kyrgyz Republic "On Licensing System in the Kyrgyz Republic" passed by the parliament – the Zhogorku Kenesh – on October 3rd, 2013, and by the Regulation on the licensing of certain types of entrepreneurial activities approved by the Kyrgyz Government resolution on March 19th, 2009, № 260. The enactment of the new law is the final stage of reforms and the improvement of licensing issues and has had an a significant impact on the licensing procedure. Today work is underway to adopt regulations to implement this law.

The list of licenses and permits has been reduced from 236 to 101 types, and licensing will be limited to those areas of business that have the potential need of state regulation. State policy and licensing and permitting activity coordination is conducted by the Ministry of Economy of the Kyrgyz Republic, direct license and permit issuance to certain types of entrepreneur is conducted by relevant state authorities.

Documents filed for license and permit

Paper copies	Electronic format
Standard Application	Standard application from the official website of the grantor
A copy of an identification document – for an individual	Scanned original identification document - for individuals
A copy of state registration certificate – for legal entities	Scanned original state registration certificate – for legal entities
A copy of a document confirming license fee payment for processing the application and the license or permit issuance.	Scanned original document confirming license fee payment for processing the application and the license or permit issuance

Costs and period of license and permit issuance

Grantee	Costs of services		Period of license consideration
	KGS	USD (at the current rate as of 01.10.13)	
Legal entity	1,000	20.6	Period of consideration should not exceed 30 calendar days from the date of application with all required documents.
Individuals	500	10.3	Period of consideration should not exceed 30 calendar days from the date of application with all required documents.

ATTENTION!

A list of types of activities subject to licensing and permitting can be found in articles 15, 16, 17 of the Law of the Kyrgyz Republic "On the Licensing System in the Kyrgyz Republic".

Address, phone number, and the official website of the Ministry of Economy of the Kyrgyz Republic and the Office of entrepreneurial regulations management are given in the "Useful addresses and contacts" section.

Patents and trademarks

It is necessary to register at the relevant authority in order to start business activities linked to property and non-property relations emerging on the territory of the Kyrgyz Republic, for the legal protection of inventions, utility models, brands, and industrial designs. State policy in the field of intellectual property protection and innovations is implemented by the State Service for intellectual property and innovations under the Government of the Kyrgyz Republic guided by the statute "On the State Service for Intellectual Property and Innovations under the Government of the Kyrgyz Republic" approved by the Government of the Kyrgyz Republic as of February 20th, 2012, № 131.

Amounts of fee for copyright, patent and trademark granting

Types of fee	Fee KGS (at the currency rate on 01.10.13)	Fee USD (at the currency rate on 01.10.13)
For the registration of the object of copyright or neighboring rights		
Application and verification of application materials	600	12.3
Addition to the state registry	600	12.3
Changes and additions to the state registry	300	6.1
Inventions, brands, utility models, industrial design		
Application for patent issue with formal expertise:		
- one invention	50	1.03
- a group of inventions, for each invention in excess of one	+ 20	+ 0.41
Application for patent issue with formal expertise:		
- one utility model	20	0.4
- a group of utility models, for each model in excess of one	+ 10	+ 0.21
Trademarks and service marks		
Application for patent issue with formal expertise:

- a group of inventions, for each invention in excess of one	+ 20	+ 0.41
Appellations of origin		
Application for registration and the right to use an appellation of origin; as well as applications for the right to use already registered appellation of origin (hereinafter - application for an appellation of origin) and the preliminary examination)	150	3.09
Trade names		
Application for a trade name registration and expertise, including:	440	8.2
- applying for trade name registration	100	2.06
-for trade name expertise	340	7.01

ATTENTION!

Address, phone number, and official website of a relevant state entity are specified in the "Useful addresses and contacts" section.

7. Certification and inspection of products

Procedures and costs to obtain a document of conformity

A mark of conformity is obtained in order to certify conformity to technical rules or standards, a set of rules, or terms of an agreement on objects with technical regulations in order to create conditions for the free handling of goods in the Kyrgyz Republic, as well as involvement in international economic, scientific and technical cooperation and international trade.

Confirmation of compliance of the products is completed using the following forms: adoption of declaration on conformity and conformity certification. (A document confirming the conformity of the products to established [usually by state standard (GOST) or other technical regulations] security requirements for a set of products – including functional properties and quality standards).

A declaration of conformity of the products is carried out by the manufacturer through the adoption of a declaration on the basis of their own evidence and/or on the basis of evidence obtained from a third party (certified testing laboratory). The Declaration of Conformity (document) provides certification by the manufacturer (supplier) that the goods produced meet the requirements of the technical regulations and are accepted in respect to a particular type of food or a group of similar types of goods produced by one manufacturer and declared according to the security requirements of this Technical Regulation.

A Conformity Certificate is a document proving that the products or processes of design (including research), manufacturing, construction, installation, adjustment, storage, transportation, sale, exploitation, utilization, performance, and service meet the requirements of the technical regulations, standards, set of rules, or terms of agreement.

Procedure (rules) for certification of conformity of the products, its cost, and terms

Applicant
Files an application for product certification. The section "Additional matter" must contain information on the volume of the certified lot of products produced or imported on the basis of contracts for supply which list the volume terms as well
Selects a certification
Covers the cost of certification including testing and inspection controls approved in the established order according to the price list

Cost of expertise

Center for Standardization and Metrology, under the Ministry of Economy of the Kyrgyz Republic	Certificate for obtaining	1-3 days	400 - 4,000 KGS (8.18- 81.80 USD)
	Examination for compliance	Payment for one expert per 1 hour to examination	101 KGS (2.07 USD)

The Centre for Standardization and Metrology published a booklet on the cost of certification works specified in the "Price list for product certification" and "Price list for product testing", they also have a scheme for the declaration of goods.

Tariffs of the Chamber of Commerce and Industry of the Kyrgyz Republic on examination of goods and issuance of certificate of origin

Description of the main stages to obtain certificates of origin in the Chamber of Commerce and Industry of the Kyrgyz Republic (CCI)

Actions	Stage 1	Stage 2	Stage 3	Stage 4
Title				
	Option 1			
Process, procedure, operation and their description	Reception of the application and supporting documents and a check of the completeness of submitted documents.	Determination of the country of origin on the basis of documents submitted by the expert.	Certificate is printed out. Applicant receives a designed certificate of origin (or denial) from the authorized official. Signs the third copy of the certificate on its receipt.	Invoice registration. Receive a cash receipt and the first copy of invoice. Payment.
Terms	5-10 minutes	5-10 minutes	5-10 minutes	5-10 minutes

Option 2				
	Reception of the application and supporting documents, check of completeness of submitted documents. Application registered in the journal.	Determination of the country of origin during production site survey. Drawing up the examination report for the outgoing shipment or for a specified period of a category of goods.	Certificate is printed out. Applicant receives a designed certificate of origin (or denial) from the authorized official. Signs the third copy of the certificate on its receipt.	Invoice registration. Receive a cash receipt and the first copy of invoice. Payment.
Terms	5-10 minutes	1-2days	5-10 minutes	5-10 minutes

ATTENTION!

The function of registering, certifying, and issuing certificates of origin by the CCI of the Kyrgyz Republic is performed, in accordance with the law of the Kyrgyz Republic «On the Chamber of Commerce and Industry of the Kyrgyz Republic». Attestation of certificates of origin of goods is charged in accordance with tariffs set by the Bureau of the Chamber as of August 5th, 2011, N 14.

Procedure and cost for obtaining an examination of the quality and quantity.

Departments of experts of the CCI of the Kyrgyz Republic: Department "Kyrgyz expertise" in Bishkek, "Southern Department of the CCI of the Kyrgyz Republic" in Osh, and its representatives in all the regions conduct examination at the behest of Kyrgyz and foreign legal entities as well as individuals in order to verify the conformity of a consignment received under a contract (agreement) as to the quantity, completeness, packaging and labeling, pre-shipment inspections of quality and quantity of goods, clarifying characteristics of the product, and defining HS code, etc.

Cost and procedure for obtaining certificate of origin

Certificate of origin of products	Services	Price (excluding taxes VAT - 12%, Sales tax - 2%)
Certificate of origin of products	Certificate of origin for all economic entities except those supplying fruit and vegetables for export and full members of the Chamber of Commerce and Industry of the Kyrgyz Republic	1,200 KGS (24.54 USD)
	Certificate of origin for all economic entities – full members of the Chamber of Commerce and Industry of the Kyrgyz Republic	960 KGS (19.64 USD) A preferential tariff is set for certificate issue in the amount of double the annual membership fees with a uniform discount on each one certificate of 20%
	Certificate of origin for traders exporting fruit and vegetables	500 KGS (10.23 USD)
Contractual expertise	Payment for one expert per hour during the examination of goods	300 KGS (6.14 USD)

Obligatory and voluntary certification

Certification types:

Voluntary certification	Obligatory certification
Voluntary certification is carried out in cases when close adherence to existing standards or other regulatory documents on products, processes or services are not provided by the state, i.e. when standards or regulations do not concern security requirements and are voluntary for producers.	Obligatory certification is to confirm the conformity of the product with mandatory requirements established in the existing legal documents and (or) standards of the Kyrgyz Republic (hereinafter - the mandatory requirements), in order to ensure the safety and protection of human life and health as well as the environment.
Demand for voluntary certification appears with the development of the free market relationship. Manufacturers want to receive independent confirmation of the quality and other benefits to the buyer and therefore passes through voluntary certification.	The mandatory requirements are specified in the list of products subject to obligatory conformity confirmation (see Resolution of the Government of the Kyrgyz Republic approved on December 30th, 2005 N 639).

In addition, if an entrepreneur intends to import / export certain products, he/she must obtain the following types of certificates:

State Inspection for veterinary and phytosanitary safety of the Government of the Kyrgyz Republic issues the following certificates:	
1. Phytosanitary certificate	Validity of a phytosanitary certificate issued for: <ul style="list-style-type: none"> • products quarantined outside the country - 15 days from the date of issue; • inland freight - 7 days.
2. Veterinary certificate	A one-time document being one of the grounds for the customs clearance of goods under control. This certificate is issued by experts of specific subdivisions of regional services of State Inspection for Veterinary and Phytosanitary security under the Government of the Kyrgyz Republic at places of registration of cargo after the veterinary and sanitary examination. Time for issue – up to 30 days.
Department of Disease Prevention and State Sanitary and Epidemiological Surveillance of the Ministry of Health of the Kyrgyz Republic issues the following certificate:	
Sanitary-Epidemiological Certificate	A sanitary-epidemiological expert establishes compliance or noncompliance of a product with state sanitary-epidemiological rules and norms. The list of products is approved by the Government of the Kyrgyz Republic . A sanitary-epidemiological certificate in established form is issued based on examination results, and is put into the Register of sanitary-epidemiological certificates.
Laboratory tests are conducted to detect genetically modified ingredients in food. Chief state sanitary inspectors and their deputies have the right to sign certificates for products examined for conformity or nonconformity with the state sanitary-epidemiological rules and standards.	
Department of Drug Supply and Medical equipment of the Ministry of Health of the Kyrgyz Republic issues:	
Medicine import permission	For medicine registration an applicant must submit a letter of intent to the Department of Drug Supply and Medical Equipment of the Ministry of Health of the Kyrgyz Republic regarding the desire to register the medicine in the Kyrgyz Republic and an application (in duplicate for each item). Period of the registration procedure is six months (it does not include the time in which the manufacturer responds to requests). Upon receiving a positive result the company - manufacturer is issued registration certificate valid for 5 years.

Fees for the Standardization and Certification from ministries and agencies (laboratory examination from certain authorities)

Nº	Standardization and certification authorities	Issued document	Time	Service cost
Manufacturer is issued registration certificate valid for 5 years.				
1.	Department of State Sanitary and Epidemiological Surveillance, the Ministry of Health of the Kyrgyz Republic	Sanitary - Epidemiological Certificate	From 3 hours to 15 days	44 to 6,485 KGS (0.90 – 132.62 USD) for one product type
		Laboratory testing and examination	1 -15 days	765 KGS – quality test (15.65 USD) 1,219 KGS – quantity test (24.93 USD)
2	State Inspectorate for veterinary and phytosanitary security under the Government of the Kyrgyz Republic	Veterinary certificate	1-30 days	12.30 KGS per form (0.25 USD)
		Phytosanitary certificate		
3	Department of Drug Supply and Medical Equipment, the Ministry of Health of the Kyrgyz Republic	Medicine import permission	6 month min.	Registration of foreign medicine costs 73,350 KGS (1,500 USD)
				Additionally, for each dosage, form and packaging 24,450 KGS (500 USD)
				Registration of medicine of domestic manufacture 7,335 KGS (150 USD)
				Additionally, for each dosage, form and packaging 1,023 KGS (50 USD)
4	State Center for variety testing and plant genetic resources the Ministry of Agriculture and Land Reclamation of the Kyrgyz Republic	Laboratory for quality assessment of variety tests: Conducts a qualitative assessment of varieties tested including assessment of baking qualities; protein and starch in corn, grain, and barley; defining oil content; brewing qualities of barley; defining essential nutrients in the varieties and hybrids of fruit and vegetable crops; defining probable yield of sugar at factories in varieties and hybrids of sugar beets; etc.	7-28 days 2 days – express test	300 - 428 KGS - purity test (6.14-8.75 USD) 552 - 649 KGS (11,289 – 13,272 USD) Full test 800-1,000 KGS (16.36 – 20.45 USD)

5	Center of grain expertise of the Ministry of Agriculture of the Kyrgyz Republic	Examination and monitoring the quality of grain and its products (flour, bran, waste), arriving at grain collecting enterprises and other economic entities regardless of ownership, for correctly inspecting quality indicators.	1 day	0 KGS
6	Center for Standardization and Metrology, the Ministry of Economy of the Kyrgyz Republic	Laboratory for consumer goods. Laboratory for engineering.	1-14 days	400 to 4,000 KGS (8.18 – 81.80 USD)

ATTENTION!

Addresses, contacts, and websites of authorities performing the functions of certification and confirmation of origin and quality of goods, represented by the Center for Standardization and Metrology of the Ministry of Economy of the Kyrgyz Republic and the Department «Kyrgyz expertise» at the Chamber of Commerce and Industry of the Kyrgyz Republic, are specified in «Useful addresses and contacts» section.

8. External trade

Export and import, priorities and main positions

The Kyrgyz Republic holds mutual, rather liberal trade policies with near and distant foreign countries which is free of private monopolies and free of state enterprises monopolies which have exclusive rights that could affect the freedom of trade.

	Membership	Objectives
World Trade Organization (WTO)	The Kyrgyz Republic joined the WTO on December 20th, 1998. The Kyrgyz Republic grants most favored nation's treatment to 148 countries in the WTO.	The main goal of the WTO as an international open organization is the liberalization of international trade and regulation related to political trade relations of member-states.
Eurasian Economic Community	The Kyrgyz Republic has started the procedure of entering by announcing its intention to join the Customs Union on April 11 th , 2011. The Government of the Kyrgyz Republic filed an application to enter Customs Union on May 29 th , 2013. The President of the Kyrgyz Republic signed the Memorandum on deepening cooperation to join Customs Union on May 31 st , 2013. Thus, the Kyrgyz Republic has confirmed its intention to integrate into Eurasian Economic Area, which must start by January 1 st , 2015	Customs Union in the frame of Eurasian Economic Community is a formal economic trade integration of Belarus, Kazakhstan and Russia, providing a common customs territory within which customs duties and economic restrictions do not apply to the mutual trade of goods except for special protective, anti-dumping, and countervailing measures. Member-states share a common customs tariff and other common measures for trade with third-party countries.
Free Trade Area of the Commonwealth of Independent States	The Kyrgyz Republic signed the Agreement for a Free Trade Area of the Commonwealth of Independent States on October 18 th , 2011.	Main goals of Free Trade Area are: 1. Liberalization of conditions and further development of mutual trade, abolition of existing restrictions and exemption from free trade regime, including ones concerning import of raw materials and export of end-products, in order to ensure free access to goods of domestic manufacturers to markets of CIS member-states. 2. Development of a coherent plan regarding the use of energy resources and transport services, development of common markets for certain types of products, especially agricultural. 3. Development of cooperation in the field of transportation, including the formation of a network of international transport corridors in the CIS space. 4. Improvement of the efficiency of the tariff policy and the elimination of the influence of national fiscal and administrative barriers on international freight.

Countries with liberal trade regimes with the Kyrgyz Republic

The Kyrgyz Republic has entered an agreement on the creation of free trade zones with the countries:	Azerbaijan, Armenia, Belarus, Kazakhstan, Georgia, Moldova, Russia, Uzbekistan, Ukraine, Turkmenistan, Tajikistan
The Kyrgyz Republic has signed an agreement granting most favored nation treatment with countries:	China, Georgia, Russia

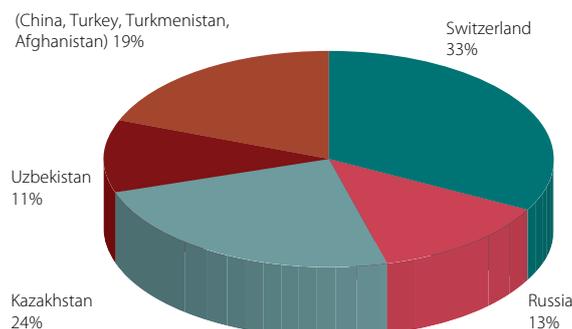

Main groups of imported goods	
Title	Total imports share (%)
Fuel and other mineral goods	22%
Transport, vehicles	25%
Chemicals and related goods	9%
Food, alcohol and alcohol-free drinks, vinegar, tobacco	8%
Base metals	7.7%
Textile	7%

Major importing countries

Major groups of exported goods	
Title	Total exports share (%)
Gold and other precious metal	34%
Oil, gas and other mineral goods	15%
Textile	12%
Fruit and vegetables	9%
Transport equipment	8%

Major exporting countries

ATTENTION!

In compliance with Regulations on the rules and procedures of mandatory product certification approved by the Government Resolution of the Kyrgyz Republic as of December 30th, 2005, N 63, a certificate of origin, or declaration of origin, must be filed with the customs declaration and other documents for customs registration of goods imported to the Kyrgyz Republic.

Types and costs of customs payments

Customs payments include	<p>Customs duties imposed according to the legislation on customs tariff of the Kyrgyz Republic</p> <p>Value added tax on taxable imports imposed according to the tax legislation of the Kyrgyz Republic</p> <p>Excise tax on imports imposed according to the tax legislation of the Kyrgyz Republic</p> <p>Seasonal duties</p> <p>Special types of duties (protective, anti-dumping, compensating) relating to non-tariff measures of regulation according to the legislation of the Kyrgyz Republic on state regulation of external trade</p> <p>Customs fees</p>
<p>In cases stipulated by the Customs Code, customs duties are paid in the form of aggregate customs payment and / or payment of customs at general rates of customs duties and taxes, without dividing them into components duties, taxes, and other customs payments.</p>	

Type definition	Details
<p>Customs duties are payments charged by tax authorities for goods imported to the customs territory of the Kyrgyz Republic or for exported goods; it is an essential condition of import and export.</p>	<p>The customs duty rates are set according to the legislation of the Kyrgyz Republic and are not modified during its validity period. (see the law "On Customs Tariff" as of March 29th, 2006, №81, Instruction for control over calculations and payment of customs duties (approved by resolution of the Government of the Kyrgyz Republic as of December 28th, 2004, N 961)).</p> <p>Calculation of customs duties on goods, subject to import duties at rate in percent to the customs value of goods, is done by to the formula: $I_d = C_v \times R_d$, wherein: I_d – the amount of import duty; C_v – customs value of goods; R_d – rate of import duty set in percent to customs value of goods</p> <p>For example: A lot of "Sony" digital video cameras are being imported to the customs territory of the Kyrgyz Republic: Commodity Code - 8528 30 000 0; Customs value of good (imputed figures) – 350,000 KGS (7,157.47 USD); import duty rate - 10% of customs value; Country of origin- Japan (goods originating from Japan enjoy most favorable treatment). Import duty calculation: $I_d = 350,000 \times 10/100 = 35,000$ KGS (715.75 USD)</p>
<p>Value added tax on taxable imports (imposed by the tax legislation of the Kyrgyz Republic)</p>	<p>According to customs and tax legislation of the Kyrgyz Republic goods imported to the customs area of the Kyrgyz Republic are subject to value added tax at rate of 12 % of goods customs value with added customs duty, for excisable goods – the amount of excise duty also.</p>
<p>Excise tax on imports, (imposed according to the tax legislation of the Kyrgyz Republic)</p> <p>Excise tax on excise able goods, issu object to the labeling and paid on the day of purchase of excise stamps. (As amended by resolution of the Government of the Kyrgyz Republic as of August 5th, 2009, N 49)</p>	<p>Basis of tax deduction for the excise tax is volume and/or customs value of excisable goods.</p> <p>Calculation of excise duty in respect of goods, subject to excise duty at the rates in som per unit, is done by the following formula: $E_t = V \times R_e$, wherein: E_t – amount of excise tax; V – volume of goods; R_e – rate of excise tax in KGS per unit.</p> <p>Example: Gasoline being imported to the customs territory of the Kyrgyz Republic: Commodity Code- 2710111100, Volume - 60 tons, Rate of excise tax– 3,000 KGS (61.35 USD) per 1 ton. Excise tax calculation: $E_t = 60 \times 3,000 = 180,000$ KGS (3,680.99 USD)</p>
<p>Seasonal duties are the type of customs duties established for control over the import and export of goods for a certain period of time.</p>	<p>Seasonal duties are established by the Government of the Kyrgyz Republic for import and export control of certain goods in coordination with Parliament (Jogorku Kenesh) of the Kyrgyz Republic. Rates of customs duties stipulated by the customs tariff of the Kyrgyz Republic are not applied. The duration of seasonal duties may not exceed six months in a year.</p>
<p>Special types of duties are duties imposed in cases of where deliveries of certain goods to the customs territory of the Kyrgyz Republic for free circulation in quantities or on terms which would inflict serious harm or pose a threat of harm to domestic industries and manufacturers of similar or competitive goods.</p>	<p>In order to protect the economic interests of the Kyrgyz Republic in accordance with the legislation of the Kyrgyz Republic special types of duties to the goods may be temporarily applied:</p> <ol style="list-style-type: none"> 1) special duties ; 2) anti-dumping duties ; 3) countervailing duties . <p>The use of special duties (special, antidumping, and compensating) is preceded by an investigation conducted in accordance with the laws of the Kyrgyz Republic "On protection measures", "On anti-dumping" and "On Subsidies and Countervailing Measures." Rates of corresponding duties are established by the Government of the Kyrgyz Republic following the results of investigation for each individual case, and their size should be associated with the dumping undercharge, subsidies, and revealed damage</p>
<p>Customs fees are compulsory payments which are made an essential condition for customs authorities to act under Articles 239, 240 of the Customs Code of the Kyrgyz Republic</p>	<p>Other customs fees include:</p> <p>Fees for customs clearance –customs clearance of goods, vehicles declared as goods is charged with customs feeat rate of 0.15% of customs value of goods and vehicles butits amount may not exceed approximate cost of goods itself.</p> <p>For making a preliminary decision a fee is charged in the amount of 500 KGS (10.23 USD).</p> <p>Fees for customs escort–customs escort for each vehicle transporting goods under customs control; customs fees are charged in the amount of 100 KGS (estimate indicator) for each full or part hour of goods and vehicle escort. This payment will be reckoned toward future payment</p>

The Government of the Kyrgyz Republic has defined by its decision commodity groups that have privileges and are exempt from customs duties:

- live stock for husbandry;
- seeds;
- fertilizers;
- plant-protection agents;
- vaccine and medicaments for animals.

Note: Instruction for control over calculations and payment of customs duties (approved by resolution of the Government of the Kyrgyz Republic as of December 28th, 2004, N 961

IMPORTANT!

- Kyrgyzstan made a decision to take part in the “Generalized System of Preferences” scheme (hereinafter, the EU “GSP+”) which recommends the member to apply at the date of its launch of January 1st, 2014.
- In the frame of the GSP+ scheme textiles, clothing, and agricultural goods will receive broader access to the markets of the European Union
- Kyrgyzstan will have easier access to Turkey after its accession to the EU “GSP+” system and its reception of participant status.

9. Free Economic Zones

Free economic zones in the Kyrgyz Republic are focused on foreign economic activity and attracting investment for the development of innovative products and the export of goods. The basic law regulating the activity of free economic zones in the Kyrgyz Republic is the law of the Kyrgyz Republic “On free economic zones in the Kyrgyz Republic”, approved by the Kyrgyz Parliament on December 16th, 1992 № 1076-XII.

The registration of enterprises with foreign investment in free economic zones

Subjects of registration	Registration procedure
Existing enterprises or enterprises under establishment with foreign investment in free economic zones. Existing subsidiaries (or under establishment) in free economic zones, and branches and representative offices in free economic zones of enterprises which are located outside the territory of free economic zones.	Established by the General Directorate of the free economic zone.
Required documents	Registration costs
Application for registration. The enterprise charter. The constituent contract (if there are several founders). The project of land development for construction, or of rented premises.	Free

Special legal regimes established in free economic zones are given privileges in the field of foreign trade and economic activity. These advantages are to provide favorable conditions for attracting foreign capital, technologies, and management experience; the development of the economic potential of the territory based on integral capital; and the funding of domestic enterprises and organizations with public and private property.

Advantages and restrictions

Advantages	Restrictions
Partial exemption from certain taxes, duties, fees and charges for the entire period of activity in free economic zones.	Petroleum products, liquor and tobacco products that are to be sold in the territory of free economic zones to individuals and legal entities that are not subjects of free economic zones.
Deductions in the amount of 0.1-2% of the revenues from the sale of goods and services are paid to the General Directorate of free economic zone for tax and other benefits within the free economic zone.	Goods produced in free economic zones that are to be sold on the domestic market of the Kyrgyz Republic, if the added value of goods in the territory of free economic zones is less than 30% and less than 15% - for household appliances and electronics.

Exported goods produced in free economic zones, imported goods, as well as goods for re-export are fully exempt from customs duties.
Exported goods produced in the territory of free economic zones are exempt from licensing and quota allocations (except for export to the customs territory of the Kyrgyz Republic, the amount of which shall not exceed 30% of total production in the free economic zones during a year); Exported goods produced in the territory of free economic zones are exempt from licensing and quota allocations (except for export to the customs territory of the Kyrgyz Republic, the amount of which shall not exceed 30% of total production in the free economic zones during a year).
Safe passage of foreign workers.
Simplified and accelerated process for registering an economic entity.
Simplified customs procedures.
Direct access to major infrastructure, including telecommunications, water, electricity and transportation, in the conduct of activities in the territory of free economic zones.

Today, there are 5 free economic zones in the Kyrgyz Republic: "Bishkek", "Maimak", "Naryn", "Karakol" and "Leilek". Free economic zones of the republic have attracted investors from more than 30 countries; they created 234 companies and joint ventures that operate in the field of trade, food, and light industry, production of building materials and furniture, and tourism. In 2012, the import of goods to the enterprises of free economic zones of the Kyrgyz Republic was done from 66 countries of the world and reached 179.7 million U.S. dollars.

Information on the characteristics and activities of free economic zones in the Kyrgyz Republic

Title	Characteristics	Activities
Free economic zone "Bishkek"	This free economic zone has its own customs and other services and has an extraterritorial status. The enterprises conduct the following activities: assembling computers, furniture, and plastic windows and doors; production of building bricks, boiler units, garment and genuine leather works, plastic containers, confectionery, tea, beer, and other types of goods.	External direct investment is amounted to 34.6 million U.S. dollars. Share in the national volume of investments was 11.0%. Share in the total investments of free economic zones of the country - 76.9%. The number of employees in these enterprises – 2,814 people. Currently, there are 412 registered enterprises in the free economic zone "Bishkek", 195 of them are created mainly with foreign investments, i.e. 96.0% of the total number of registered entities is joint ventures, or enterprises with the participation of foreign investors from 25 countries.
Free economic zone "Maymak"	At the moment industrial activity is not conducted.	There are a total of 9 registered economic entities.
Free economic zone "Naryn"	Its enterprises produce flour, canned meat and vegetables, mineral water, plastic packaging, confectionery, concentrates of precious metals, etc. The major export is cattle hides, wool, and canned meat. Products are exported mainly to China.	There are 54 registered enterprises, 19 of them operate in different economic sectors. Import amounted to 3.6 million U.S. dollars, which is 4 times higher than the volume of export. The main trading partners for imports are China and the Russian Federation. During its activity, free economic zone "Naryn" has attracted direct investment worth 5.8 million U.S. dollars, 60% of investment has come from China. Basically, investment comes in the form of equipment for the production and management of exploration and prospecting.
Free economic zone "Karakol"	Currently, 13 economic entities in the free economic zone are engaged in industrial production. The main types of industrial products are garments, flour, herbs, mineral water, canned fruits and berries, bakery and confectionery products, packing materials, and millwork.	Export of goods to foreign countries has made 100 thousand U.S. dollars. The following types of products have been exported: cattle hides, washed wool, herbs. Goods are mainly exported to China and the Russian Federation. The domestic market is supplied by equipment, consumer goods, metal wastes amounting 217 thousand U.S. dollars. The number of employees in the enterprises - 780 people.
Free economic zone "Leylek"	Currently FEZ "Leylek" has no registered address, and does not perform any productive activities.	

ATTENTION!

Addresses, contacts, and the official websites of free economic zones of the Kyrgyz Republic are given in the "Useful addresses and contacts" section.

10. Logistics and cargo transportation costs

The scope and structure of cargo transportation for all common types of transportation in the Kyrgyz Republic

The role and importance of cargo transportation	The growth of transit traffic increases the efficiency of a nation's transport system's carriage capabilities, giving an incentive for their reproduction and improvement. Due to the growth of the transit traffic, budget revenues have increased, as well as income for transport organizations and their effective development.
The scope and structure of goods moved	The total volume of goods moved by all carrier types in 2012 reached about 2,300 million kilometers. Within that, the weight of cargo transported by each specific means was: Automobile – 55.2 % Train – 33.8 % Pipeline – 6.2 % Air – 4.8 %

Cargo transportation costs for common types of transportation in the Kyrgyz Republic

A) Cargo transportation cost for motor vehicles

The average market value of trucking Almaty (Kazakhstan) - Bishkek (the Kyrgyz Republic) Freight car awning from 2 to 5 tons		The average market price for truck freight from Bishkek (the Kyrgyz Republic) to Moscow (Russian Federation) cargo weight 1-20 tons	
37,998	778	from 106,000 to 304,000	from 2,170 to 6,220

Comparative freight rates for motor vehicles in Central Asia:

Country	Freight rate per ton (KGS)	Freight rate per ton (USD)	Average market commission for freight forwarder (%)	Extra fees (USD)
Kazakhstan	649	14	2-3	0
Uzbekistan	1,219	25	3	36 – escort
Tajikistan	341	7	7	8 – escort
Kyrgyzstan	293	6	3	0

B) Freight rates for railway transport

№	Itinerary	Covered wagon, flour, 60 tons		Open wagon, coal, 60 tons		Tank wagon, 60 tons, seed oil		Container, 40 ft.	
		KGS	USD	KGS	USD	KGS	USD	KGS	USD

2.	Lugovaya - Astana	25,559	525	21,449	440	36,649	752	29,763	611

C) Freight rates for air transport

Rates for air transportation from Almaty (Republic of Kazakhstan) to Bishkek (the Kyrgyz Republic) for 1 kg, excluding cargo dimensions and hazard class, are		Rates for air transportation (import from Russian Federation to the Kyrgyz Republic) for 1 kg, excluding cargo dimensions and hazard class, are:	
KGS	USD	KGS	USD
from 95	from 1.95	from 136 from 166	2.79 3.41

D) Container types exploited for cargo carriage

Low-capacity containers	Intermediate bulk containers	High-capacity containers
<ul style="list-style-type: none"> capacity 0.3 to 1.0 m³ gross weight less than 2.5 tons 	<ul style="list-style-type: none"> capacity 3.0 to 15.0 m³ gross weight 2.5 to 5.0 tons 	<ul style="list-style-type: none"> ISO series I length of 20, 30 or 40 feet (6,058, 9,125, 12,192 mm, respectively) with a width of 8 feet (2,438 mm) at height of 8 feet 6 inches (2,591 mm)
Low-capacity and intermediate bulk containers allow small consignments and carload. Low-capacity containers of more than 1.5 tons gross weight heading for People's Republic of China must be transported in open rolling stock.		Loaded and empty high-capacity containers are for high-capacity container shipments only.

Destination stations for loaded containers

Low-capacity and intermediate bulk containers	High-capacity containers
1) small consignments: Alamedin, Balykchy; 2) car load: Alamedin, Bishkek-I, Dzhahal-Abad, Kyzyl-Kiya, Osh-I, Balykchy	- Alamedin (Bishkek) (2) - Osh-I

Existing international transport corridors

At this time, Afghanistan, United Arab Emirates, India, People's Republic of China, Mongolia and Iran are important routes for cargo transportation. To this end, the importance of the following transport corridors is increasing:

Nº	Main route	Distance (km)
Northern Nº1	Torugart – Ak-Beyit – Kara-Bulun – HPP (hydroelectric power plant) At-Bashy – along Naryn river – Kok-Art – Dzhahal-Abad	430
Northern Nº2	Torugart – Arpa – along the Fergana range – Kok-Art – Dzhahal-Abad	245
Southern Nº1	Torugart – Tuzbel – Arpa – along the northern bank of Yassy river – Uzgen – Kara-Suu	271
Southern Nº2	Torugart – Tuzbel – Arpa – along the southern bank of Yassy river – Uzgen – Kara-Suu	259

Cargo transportation from the Republic of Kazakhstan to the Kyrgyz Republic is handled through railroad crossing points:	Optimum transport routes for export from Kazakhstan to the Kyrgyzstan
Lugovaya station (Republic of Kazakhstan) Kara-Balta (the Kyrgyz Republic) – Bishkek – Balykchy	Almaty – Osh (border-crossing point – Sary-Agach station export – Bekabad export – Suvonobod export – Savay export)

Main directions for cargo transportation are Kazakhstan, Russia, Turkey, China and EU-countries.

Cargo truck transportation is handled through the following checkpoints:	International routes going through territory of Kyrgyzstan:
<ul style="list-style-type: none"> Korday (Kazakhstan); Akzhol (Kyrgyzstan) and Ak-Tilek; Adjacent to major checkpoints of Korday, Kazakhstan (old name Georgievka); Karasuu. 	<ul style="list-style-type: none"> Bishkek – Naryn – Torugart – the border with China; Bishkek – Almaty; Osh – Sary Tash – Irkeshtam – the border with China; The border with Tajikistan – Karamyk – Sary Tash – Irkeshtam – the border with China; Bishkek – Osh – Andizhan; Bishkek – Chaldovar – the border with Kazakhstan; Suusamyр – Talas – Taraz; Osh – Isfana – the border with Tajikistan; Balykchy – Cholpon-Ata – Tyup – Kegen – the border with Kazakhstan.

International transport corridors to the sea:	
Karachi (Pakistan) (Bishkek – Karachi = 3,119 km)	Bandar Abbas (Iran) (Bishkek – Bandar Abbas = 3,440 km)
Access to the sea: <ul style="list-style-type: none"> Across Osh – Sary-Tash – Karamyk route; Kyrgyzstan does not exploit this existing access to the sea because Afghanistan has not signed the convention (TIR) for the custom duties. 	<ul style="list-style-type: none"> Bandar Abbas harbor (transit through Turkmenistan and Kazakhstan) with access to Arabian Gulf; Through Merke (Kazakhstan)–Chaldovar – Kara-Balta–Gulcha–Sary-Tash (Kyrgyzstan) – Karamyk - Jirgital – Vahdat – Dushanbe – Tursunzoda “ – Sariasiya checkpoint – Hairatan checkpoint – Bandar Abbas in Iran.
CAREC (Central Asian Regional Economic Cooperation) 6 includes three routes going to Europe, the Russian Federation, and seaports. The route consists of 10,600 km of highway, 7,200 km of railway. <ul style="list-style-type: none"> Karachi Gwadar Bandar Abbas 	

ATTENTION!

Address, phone number, and the official website of the Ministry of Transport and Communications of the KR is specified in the “Useful addresses and contacts” section.

11. Closure of an enterprise (procedure and costs)

According to the legislation of the Kyrgyz Republic a legal body may be liquidated and closed:

Voluntary	By mandate
By decision of its founders, members or legal entity authorities empowered by the charter documents; due to the expiration of a legal entity and achievement of its objectives; or an invalid registration of legal entity recognized by the court related to the admitted violations of law during its establishment which is irremediable.	By court order, in the case of conducting activities without proper license authorization; in the case of illegal activities; due to the multiple and severe violations of the law; continually engaged in activities contradicting the chartered purposes of the legal entity; in the case of a withdrawing of license from banks, financial organizations or institutions conducting activities which are only permitted through a specified license; any other cases established by the law

The procedure of voluntary closure

Steps to be undertaken in closing an enterprise:

Make a decision on liquidation (closure)	First of all, the body authorized under the law or the chartering documents (for example, a general meeting of the members of an LLC or sole member) makes a decision on liquidation. This decision must also include the appointment and the composition of the liquidation committee as well as determine the order and period of liquidation.
Notify the judicial authorities of the decision made	A legal entity is obliged to notify in writing the Ministry of Justice within 3 working days after the date of the decision on termination and liquidation of the business. A registration termination notice shall include a copy of the decision on liquidation by legal body of the court and the appointment of a liquidation committee.
Notify the tax authorities of decision made	A taxpayer making a decision to terminate activity is required to submit an application for cancellation of tax registration of a legal body/individual, hand over the final tax reports and remaining invoices for value added tax (VAT) (if it had been registered for VAT) to the tax authority at the place of tax registration or account registration within 30 days from the date of making the decision. Tax authorities conduct an onsite tax audit checking the accuracy of the calculations, the timeliness of tax payments and other obligatory budget payments. If there is any debt, the taxpayer has to discharge all debts to the budget. In reality, the audit takes 10-30 days.
Prepare interim liquidation balance sheet and liquidation tax accounts	After the expiration of the time limit for submission of claims by creditors the liquidation commission prepares interim liquidation balance sheet which contains information on the property of the liquidated legal entity, a list of alleged claims by creditors and their outcome. Interim liquidation balance sheet is approved by the property owner or the authority that made the decision to liquidate the legal entity.
Prepare liquidation balance sheet	After final accounts with creditors the liquidation committee prepares a liquidation balance sheet which is approved by the owner of the property of the legal entity, or by the authority that made the decision to liquidate the legal entity.
Issuing of a reference on the absence of social security debts	The taxpayer appeals to the Social Fund's territorial authority of the Kyrgyz Republic, within 30 days from the date of the relevant resolution, for a reference of the Social Fund authority on the absence of debt for insurance contributions. On the basis of the application and completed form the Social Fund's territorial authority verifies the accuracy and timelines of all insurance payments. According to the law of the Kyrgyz Republic "On rates of insurance fees on state social security" as of January 24th, 2004, if there is no debt the reference is issued the same day.
Close bank accounts	Bank accounts are closed at any time by the application of a client. The order is prescribed by the law "On banking system of the Kyrgyz Republic" and bank regulations. But the reference affirming the closure of all accounts must be received from all registered and existing banks in the Kyrgyz Republic (23 banks at the present time).
Central Archives	The Central Archives issues a Report of the Kyrgyz Archive Agency on the documents of the liquidated entity. Processing of documents (copies of chartering documents, documents on personnel appointments, and pay sheets) takes up to 2 working days.
Seal and stamp liquidation	The official seal and stamp are handed over at the territorial internal affairs department with the remark on the application to internal affairs authorities.

Note: The requirement to publish a notice in the media regarding the closing of a business has recently changed and is no longer required by law; however, the tax authorities continue to ask applicants to publish notices in the media for 60 days prior to the submission of all documents to the Ministry of Justice of the Kyrgyz Republic.

Liquidation procedure at judicial authorities' locations

Documents filed to the judicial authorities for the closure of an enterprise according to the article 13 of the Law of the KR "On state registration of legal bodies, branches (agencies)" as of February 20th, 2009, №57

1. Registration application in the form approved by the Government;
2. Legal entity authority or court decision on liquidation of a legal body and on appointment of liquidation committee;
3. Original state registration certificate of the legal entity;
4. Original charter (for financial organizations and non-commercial organizations);
5. Reference from the Social Fund authority on the absence of insurance payment debt;
6. Reference from the tax authority on absence of tax debt;
7. Reference from the banks on the closure of the legal entity's bank accounts;
8. Reference from the internal affairs body on the release of seal and stamp;
9. Decision regarding the approval of the liquidation balance ;
10. Liquidation balance sheet with the proof of acceptance by tax authority;
11. Report of the state archive fund on the storage of archives of the liquidated legal entity;
12. Receipt of registration fee payment.

Application processing period and costs of the judicial authorities

The Ministry of Justice would process the application for enterprise closure within 7 working days.

Registrar fee will amount 192 KGS (approximately 3.90 USD).

More information on registration of legal body is available on the Ministry of Justice's website:<http://minjust.gov.kg>

ATTENTION!

Original documents are provided, it is recommended to keep copies of documents.

The last stage is to receive a copy of the order on registration of the legal entity's discontinuation. This document certifies that legal body is excluded from the State Register and has terminated its activity.

Costs and cancellation of registration at state authorities

Tax service

Filed application for the enterprise closure (considered within 3 working days; no fee)

Social Fund

The reference is given within one working day; no expense required.

Banks

Application with request for reference demonstrating the absence of debts (it is typically done within one working day, the fee is set by banks)

Internal Affairs Body

Seal and stamp are handed over to the territorial authority of internal affairs body, in order to receive a reference. (issued on-site, no fee)

Central Archives

It's necessary to submit certain documents (which are considered within 2 working days; fee - up to 600 KGS/12.2 USD)

The Ministry of Justice of the Kyrgyz Republic

All documents must be filed to the Ministry of Justice locations for processing application with a subsequent issuing of a copy of the order on the legal entity's discontinuation.

ATTENTION!

Service costs will amount 500 to 700 USD if you hire the services of private agency.

The time for filing all necessary documents is 60 to 90 days with a subsequent filing to the Ministry of Justice of the Kyrgyz Republic.

12. Judicial system of the Kyrgyz Republic

Supreme and local courts' powers in the Kyrgyz Republic

Authorities	Definition	Powers
The Supreme Court	The Supreme Court is the highest judicial body for civil, criminal, economic, administrative, and other issues. The Constitutional Chamber acts as part of the Supreme Court. (Enactment 12, the law "On the Supreme Court and local courts")	The Supreme Court: a) oversees local courts' activity through reconsideration of judicial acts in case of process participants' complaints. b) revises (considers) law suits and materials in the exercise of its supervisory functions; c) reconsiders court cases if there is newly discovered evidence; d) studies and summarizes jurisprudence and maintains legal statistics; e) exercises other powers granted by the law of the Kyrgyz Republic, except for the powers which are granted to the Constitutional Chamber. (Art. 14, the law of the Kyrgyz Republic "On the Supreme Court and local courts")
The Judicial Panel of the Supreme Court		The Judicial Panel: 1) revises judicial acts that entered into legal force in cases and under the order of procedural law in the exercise of its supervisory powers; 2) reconsiders the adoption of judicial acts if there is newly discovered evidence in cases under procedural law.
The Constitutional Chamber of the Supreme Court of the Kyrgyz Republic	The Constitutional Chamber of the Supreme Court of the Kyrgyz Republic (Constitutional Chamber) is the highest judicial body independently exercising constitutional control through constitutional procedure. (Enactment 1, the law "On constitutional chamber of the Supreme Court of the Kyrgyz Republic")	The Constitutional Chamber: 1) declares laws and other regulatory legal acts unconstitutional if they contradict the Constitution; 2) gives counsel regarding the validity of international treaties that have not entered into force in the Kyrgyz Republic; 3) gives counsel regarding draft laws on amendments to the Constitution. To effectively organize its activity, the Constitutional Chamber: 4) adopts and approves regulations on the Constitutional Chamber staff, its structure, and staff numbers within the expenditure estimates; 5) has the right to request information and documents from all state agencies and local authorities, their officials, public unions, legal entities, and individuals; involves professional experts and science advisors as well, as needed to address a received appeal; 6) gives an annual published report of fulfillment of acts, for general use. (Art. 4, the law of the Kyrgyz Republic "On the constitutional chamber of the Supreme Court of the Kyrgyz Republic")
Local courts system	1. Local court system consists of: 1) court of primary jurisdiction; 2) court of appellate jurisdiction.	
Primary Level Court	District court, city district court, municipal court, inter-district court, district court-martial	Primary level courts: 1) consider civil, criminal, economic, administrative suits, cases of administrative offense, and other issues; 2) reconsider judicial acts adopted by the court that entered into legal force if there is newly discovered evidence; 3) render judicial acts entered into legal force; 4) conduct clerical work and legal statistics, study and summarize jurisprudence, maintain records of legal suits and trial terms, and store legal cases and materials; 5) exercise other powers under the Kyrgyz Republic's legislation. 6) judges preside at the primary level courts, but in the cases and manner prescribed by the law of the Kyrgyz Republic citizens of the Kyrgyz Republic are entitled to participate in delivering justice. (Art. 33, the law of the Kyrgyz Republic "On the Supreme Court and local courts").

Secondary Level Courts	Regional court, Bishkek city court, Military court of the Kyrgyz Republic	<p>Secondary level courts:</p> <ol style="list-style-type: none"> 1) reconsider the decisions of the primary jurisdiction court which have not entered into legal force before the appeal hearing; 2) reconsider the decisions of the primary jurisdiction court which have entered into legal force in cassation; 3) conduct clerical work and legal statistics, study and summarize jurisprudence, maintain records of legal suits and trial terms, and store judicial materials; 4) exercise other powers under the Kyrgyz Republic's legislation. (Enactment 28, the law "On the Supreme Court and local courts").

Consideration of disputes in the Court of Arbitration

July 30th, 2002	The law "On additional arbitrators in the Kyrgyz Republic" was passed on July 30th, 2002 in Kyrgyzstan, and was renamed into the law of the KR "On court of arbitration in the Kyrgyz Republic" in 2003.
September, 2002	International Court of Arbitration under the Chamber of Commerce and Industry of the Kyrgyz Republic was officially registered by the Ministry of Justice
International Court of Arbitration under the Chamber of Commerce and Industry of the Kyrgyz Republic's mission	Ensuring fair impartial settlement of commercial disputes by arbitration and other alternative methods
An example of an arbitration clause recommended by ICA under the Chamber of Commerce and Industry of the Kyrgyz Republic	"Any dispute, controversy, claim or claims arising out of this contract (agreement), or in connection with, including those relating to its performance, breach, termination, or invalidity thereof, shall be settled by the International Court of Arbitration under the Chamber of Commerce and Industry of the Kyrgyz Republic in accordance with its Regulations (Expedited Regulations) of the International Court of Arbitration under the Chamber of Commerce and Industry of the Kyrgyz Republic by three arbitrators (optional - one arbitrator), who were elected in accordance with the Regulations. The substantive law, in accordance with which dispute is to be settled, is the law of the Kyrgyz Republic (optional – the law of another country). The arbitration proceedings must be conducted in Russian (Parties may provide the language of the arbitration proceedings). The arbitration decision is final."
On the resolutions of the ICA under the Chamber of Commerce and Industry of the Kyrgyz Republic	<p>Article 25 of the law of the Kyrgyz Republic "On courts of arbitration in the Kyrgyz Republic" states: "The arbitration decision is final and may not be appealed. Parties must implement the decision in the manner and terms prescribed in the decision".</p> <p>A similar statute is stated in the accepted regulations of ICA: paragraph 4.4 of the Regulations, approved by the Supervisory Board of ICA under the Chamber of Commerce and Industry of the Kyrgyz Republic, of February 8th, 2007.</p> <p>This legal position is confirmed by the Constitutional Court of the Kyrgyz Republic of February 19th, 2008</p>

Arbitration Fees

Claim price (USD)	Arbitration Fees
Up to 1,000	150

Banking services

The total number of commercial banks currently operating in Kyrgyzstan is 23. They provide customers with a wide range of services including assistance in the sphere of new enterprise development and implementation of new investment projects. Most of the banks have widely implemented the international Visa and MasterCard brands, especially for processing payment transactions between the buyers and sellers. There are several bank card payment systems with a total circulation of close to 500 thousand plastic cards with a turnover of more than 400 billion KGS have been created and are operating in the country. The local payment systems of the commercial banks are combined into a unique national payment system for bulk clearing and processing all non-cash transactions in the national currency.

All commercial banks of the country including their 280 branch offices are operating through the specialized participant system – “Inter-bank processing centre” CJSC (“IBPC” CJSC). Large and medium-sized enterprises can use this system to pay salaries and other payments to their employees.

List of documents for bank credit application:

For a legal entity

1. Completed application form
2. Constituent documents
3. Documents proving the authority to enter into the transaction.
4. Documents showing the financial activity of the enterprise
5. Confirmation letter regarding the absence of debts
6. Business plan specifying a predictable cash flow
7. One of the following types of collateral:
 - Pledge of property or securities;
 - Guarantee of a bank or insurance company;
 - Third-party guarantee.
 - Insurance company policy, regarding insurance of credit risk by a loan borrower.

ATTENTION!

As a rule, a bank credit application requires collateral in the form of a guarantee, letter of comfort, insurance policy or pledge. The collateral is regulated in accordance with the Civil Code of the Kyrgyz Republic, and the Law of the Kyrgyz Republic "On Pledge". However, in practice certain banks require a pledge from the client, whose value exceeds the credit amount twice or 100% insurance from commercial value.

The Union of Kyrgyz Banks is a voluntary association of commercial banks, specialized financial institutions operating in the territory of the Kyrgyz Republic, as well as international organizations and their representatives.

The main mission of the Union of Kyrgyz Banks is: «Protecting the rights and interests of members of the Union of Banks of Kyrgyzstan».

Micro lending services

Summary information on the micro lending market

Services in the lending market, in addition to those provided by the primary banking sector, are successfully rendered by the micro lending sector which includes microfinance companies, microcredit companies and agencies, as well as credit unions. The primary mission of the micro financing sector is to render financial services to small enterprises and low-income entrepreneurs so that they can provide employment opportunities, increase assets, and raise their living standard. Today, there are 5 micro-financing companies, 225 micro lending companies, and 16 credit unions successfully operating in Kyrgyzstan. The distinctive of micro-financing organizations in Kyrgyzstan, unlike commercial banks, are: an absence of collateral for some kinds of credit (only guarantee), the consideration and granting of credit within a short period of time, and the availability of small sums for clients.

Accounting and auditing services

Summary information on accounting and auditing services' market

The Governmental Decree of the KR dated September 28, 2001 No. 593 approved the International Financial Reporting Standards (IFRS) in the Kyrgyz Republic and the Schedule of gradual implementation by the legal entities of the Kyrgyz Republic of IFRS. Then in 2002, the Law of the KR "On Accounting of the Kyrgyz Republic" approved IFRS. In accordance with the Law (article 1, paragraph 2) IFRS is the only methodology approved for accounting, record-keeping, and financial reporting in the territory of the Kyrgyz Republic for all entities irrespective of their form of ownership (excluding government-financed organizations and individual entrepreneurs). The government-financed organizations accept the International Financial Reporting Standards for the public sector (IFRS PS) as the fundamental document. Entities classified as small and medium-sized businesses (SMBs) are governed by IFRS PS

In accordance with the Law of the Kyrgyz Republic "On Accounting" the business entities should provide:

- accounting record-keeping in accordance with IFRS requirements;
- accounting policy acceptance and its consistent fulfillment;
- proof of the existence and performance of internal control system

In accordance with the legislation of the Kyrgyz Republic, auditing activities in Kyrgyzstan are a licensed type of business activity. Nowadays, 72 companies in KR are providing accounting and auditing services

Main criteria for cost determination of auditing and accounting services

1. Was the potential customer audited previously?
2. Does the company, who requested the audit, use special accounting software?
3. Level of accountants' competence (do the specialists have the relevant education, certificates etc.).
4. Does the accounting and record-keeping of the potential client follow the norms established by the legislation of the Kyrgyz Republic, and first of all, does it meet IFRS standards.
5. Complexity of conducted transactions.
6. Is the Company a problematic one (for instance, unprofitable).
7. Existence of branch offices.
8. Total assets, number of borrowers (for financial institutions, for instance, banks).
9. Sector profile, etc.

Guiding price for auditing and accounting services in the Kyrgyz Republic

Sequence-No	Types of auditing and accounting services	Unit of measure	Price per unit of measure (KG soms)
1	Accounting	Per month	starting at 5,000
2	Auditing	Financial reporting of a business year	starting at 20,000

Insurance

Summary information on insurance market

There are two functioning insurance systems in the Kyrgyz Republic: Obligatory and voluntary. Statutory types of insurance are required by the certain laws, and serves to distribute liability between the insurers and insured in case of an occurrence of an insured event. 17 insurance companies including two re-insurance organizations are doing their business at the insurance market of Kyrgyzstan. Mainly, insurance business is focused in the capital city (14 companies), and only one insurance company is operating in Jalal-Abad. On April 15th, 2013, the Government of the Kyrgyz Republic adopted a Resolution (under № 194) "On Approval of Insurance Market Development Concept in the Kyrgyz Republic for 2013-2017". This Resolution implementation will raise effectiveness of the insurance companies' activities in Kyrgyzstan. In accordance with normative legal documents along with voluntary types of insurance, the activity in statutory types of insurance can be carried out by the insurance companies with chartered fund more than 50 mln. KG soms and more. The insurance companies with chartered fund less than 50 mln. KGsoms are allowed to provide voluntary insurance services.

Obligatory insurance:

1. Public insurance of health and life of military servants, armed forces of the Kyrgyz Republic, and the persons liable for military service called for training and special military periods.
2. Compulsory insurance of civil liability of employee for infliction of harm to health and life of employee while performing labor (official duties).
3. Compulsory insurance of civil liability of organizations operating hazardous industrial facilities.
4. Compulsory insurance of civil liability of the carrier transporting hazardous cargo.
5. Carrier's compulsory insurance of civil liability to passengers.

Business, property appraisal and estimation

Summary information on the market of appraisal services

Market valuation services in Kyrgyzstan are comparatively young, and began their formation from the mid-90s of the previous century. The stable legal framework was set over the years of independence of the Kyrgyz Republic: on August 21st, 2003, the Government of the Kyrgyz Republic adopted a Decree (№ 537) "On development of assessors and valuating organizations in the Kyrgyz Republic"; on January 5th, 2004 the Resolution "On Certification and issuance of qualification certificates to the assessors in the Kyrgyz Republic" was approved by the Order of the State Property Committee of the KR. On April 3rd, 2006 the Resolution of the Kyrgyz Republic № 217 approved Property Appraisal Standards, which has to be implemented and followed by all the estimating agencies in the Kyrgyz Republic on a mandatory basis. Cost of estimating works is defined on the basis of the object condition and state and complexity of engineering works.

Services at the securities market

Securities trading services regulation

Relations at the securities market in the Kyrgyz Republic are regulated by the package of legislative and regulatory instruments – the Civil Code of the KR, the Laws of the Kyrgyz Republic “On the securities market”, “On investment funds”, “On Joint Stock Companies”, and other regulatory legal acts. Current regulating authority of securities market is Government Agency for regulation and supervision of financial market under Government of the Kyrgyz Republic. The Service is the relevant public authority which implements unified state policy in the financial market of the Republic.

In accordance with the legislation of the Kyrgyz Republic, all transactions at the securities market are conducted in a written form through professional participants of the securities market (brokers). Trade transaction settlements of public companies' and open joint stock companies' securities are executed at the stock exchange under commission contracts signed between the Parties and a professional participant (broker). Also, the transactions with securities can be registered through an independent registrar of security holders on the basis of the Contracts for the investment assets' management, as well as Sales Contracts for the securities sales which are not permitted to circulate on the trading platforms of stock exchanges in accordance with the legislation of the Kyrgyz Republic. Lists of the necessary documents for the settlement of securities sales and purchase transactions to natural persons, legal entities, including stages of trade transaction settlement are shown below

Cost of services provided by professional participants

Professional participant in the securities market	Functions and basic services rendered to clients	Cost of services of a professional participant in the securities market
Broker	<ol style="list-style-type: none"> 1. Registration of stock/shares and other securities purchase/ sale transactions; 2. Buying-up and amalgamation of share package; 3. Participation and organization of auction proceeds in sale of an equity interest; 4. Consulting and assisting in additional securities placement 	from 0.1 - 1.5 % of transaction amount (commission fees)

16. Visa regime and consular services

Visa regime and visa support

	Name of the country	Duration of stay (in days)	Entrance visa issuing pointt
Countries with a visa-free regime	Russia, Armenia, Azerbaijan, Belarus, Georgia, Kazakhstan, Moldova, Mongolia	90	Missions of the Kyrgyz Republic abroad, in round-the-clock Visa section at the international airport "Manas", Department of consular service of the Ministry for Foreign Affairs of the Kyrgyz Republic
	Tajikistan, Ukraine, Uzbekistan, Australia, Austria, Bahrain, Belgium, Bosnia and Herzegovina, Brunei Darussalam, Holy See, Hungary, Germany, Greece, Denmark, Ireland, Iceland, Ireland, Italy, Japan, Jordan, Korea, Kuwait, Latvia, Liechtenstein, Lithuania, Luxembourg, Malta, Monaco, Netherlands, New Zealand, Norway, United Arab Emirates, Poland, Portugal, Saudi Arabia, Singapore, Slovakia, Slovenia, United Kingdom of Great Britain and Northern Ireland, United States, Finland, France, Croatia, Czech Republic, Switzerland, Sweden, Estonia, Japan	60	
	For the owners of diplomatic and business passports of following States: The Republic of Hungary, People's Republic of China, Turkmenistan	30	
The countries whose citizens are required to obtain an entry visa to Kyrgyzstan	The citizen of the countries that are not listed above	According to the date specified in the visa	Embassy of the Kyrgyz Republic in the country where

Every foreign citizen upon arrival in Kyrgyzstan should be registered at the local police office during 3 days (Foreign Regional Registration Office, Regional Department of Internal Affairs) by the firm providing the visa facilitation on condition that you will stay in Kyrgyzstan more than three days business days.

The citizens of the following states are free from registration at the Department of Internal Affairs: Australia, Austria, Belgium, Germany, Greece, Denmark, Israel, Ireland, Iceland, Spain, Italy, Canada, Cyprus, Korea, Lichtenstein, Luxemburg, Malta, Monaco, the Netherlands, New Zealand, Norway, Portugal, the United Kingdom of Great Britain and Northern Ireland, the United States of America, Finland, France, Switzerland, and Sweden.

- We recommend that you take out medical insurance including climbing when you visit Kyrgyzstan. Tourists are admitted to some zones of Kyrgyzstan only if they have all the necessary documents including a payment guarantee for rescue operations.
- The visa is valid practically anywhere within the territory of the Kyrgyz Republic. However, one needs special permission to enter zones which border China as well as six other zones in the territory of the Kyrgyz Republic. They are: zones of Engilchek region, the northern part of Terskei Ala-Too, the zone from Ak-Sai in the East to Djuuku in the West, Chatkal valley and Ak-Sai glacier in Ala-Archa gorge. All the necessary documents can be approved and obtained in a short period of time.

Rates for consular services rendered by the Consular Services Department of MFA KR for visa extension in the Kyrgyz Republic:

Nº	Description of Consular Services	Rates of consular fees within the territory of the KR, USD	Rates of processing fees at the Consular Service Department of MFA KR, USD	Total amount, US dollars, (payment via RSK-Bank)

	- double-entry visa	35	10	45

Rates for consular services applied by the Consular Services Department of MFA KR for visa facilitations (invitations) in the Kyrgyz Republic:

Countries	Rate, KGS (payment to RSK-Bank)	Rate, USD (payment to RSK-Bank)
Countries of Asia, USA	790	16.1
European Union countries	615	12.6
CIS countries	355	7.2
Manas airport	200	4.1

Fee for registration and consideration of the submitted documents is 100 KG soms (payment to RSK-Bank)

Legalization of documents

Process for the legalization of the documents in the Kyrgyz Republic:

- 1) State Notary Office of the Kyrgyz Republic;
- 2) Notaries section and lawyers' office of the Ministry of Justice of the Kyrgyz Republic;
- 3) Consular Services Department of MFA of the Kyrgyz Republic;
- 4) Accredited in the Kyrgyz Republic diplomatic mission or consular institution of a foreign country where the documents will be used, or a diplomatic or consular mission of the Kyrgyz Republic accredited to a foreign country (the territory of which the documents will be used).

Process for the legalization of the foreign documents to be used within the territory of the Kyrgyz Republic:

- 1) Relevant authority of a foreign state
- 2) Diplomatic Mission or Consular Institution of the Kyrgyz Republic accredited in a foreign country;
- 3) Consular Services Department of MFA of the Kyrgyz Republic.

In a case where the documents were not legalized at the Diplomatic Mission or Consular Institution of the Kyrgyz Republic:

- 1) Accredited Diplomatic Mission or Consular Institution of the foreign State;
- 2) Consular Services Department of MFA of the Kyrgyz Republic.

IMPORTANT!

According to the Convention on legal assistance and relations due to civil, family and criminal issues signed in Kishinev, dated October 7, 2002, the documents that are issued or confirmed by the relevant institution or the specially authorized person in realm of his competency in the prescribed format and officially sealed are accepted in the territories of the following States without legalization:

1. The Republic of Azerbaijan
2. The Republic of Armenia
3. The Republic of Belarus
4. The Republic of Kazakhstan
5. The Republic of Moldova
6. Russian Federation
7. The Republic of Tajikistan
8. Turkmenistan
9. The Republic of Uzbekistan
10. Ukraine

The official documents issued in one of the signatory countries of Hague Convention Abolishing the Requirement for Legalization for Foreign Public Documents dated October 5, 1961 are free from legalization excluding the following ones:

- the documents issued by diplomatic or consular agents;
- the administrative documents that are directly related to commercial or customs operation.

In this case the documents are certified by the appropriate public authorities of the Kyrgyz Republic in order to be made eligible for an apostle.

However, the Hague Convention Abolishing the Requirement for Legalization for Foreign Public Documents dated October 5, 1961 is not recognized between the Kyrgyz Republic and the following States as these States have objections concerning the integration of the Kyrgyz Republic into this Convention:

1. The Kingdom of Belgium
2. Republic of Austria
3. Federal Republic of Germany
4. Greece

Additional information: Rates for actual and consular dues applied by the Consular Services Department of MFA of the Kyrgyz Republic for the legalization of documents:

Consular services	Rates of consular and actual fees, KGS	Rates of consular and actual fees, USD
For legalization of each document issued by the public authorities of the KR: - to natural persons - to legal entities	170 630	3.48 12.9
For legalization of each document issued by the public authority of a foreign State: - to natural persons - to legal entities	300 1,030	6.14 21.1
For legalization of each educational document: diploma of the KR of higher and professional education, Certificate of the KR of Secondary Complete Education, Certificates on graduation from educational courses	1,300	26.63

17. Construction business project implementation

Requirements for the contracting agency

1. Established as a legal entity (business)
2. Possession of 1st, 2nd, 3rd, and 4th level licenses issued by the State agency for construction and regional development under the Government of the Kyrgyz Republic
3. Specialists must have a certificate in the relevant specialties.
4. Experience in implementation of similar projects or participation in tenders

Terms for inspection by government building inspectors

Area (m ²)	Term (days)
50 to 300	7
300 to 1000	10
more than 1000	20

List of required documents for inspection

1. Customer application for inspection.
2. Document granting authority from the customer to act on his/her behalf, in which details on the finalization, modification, execution, and termination of an agreement regarding the state inspection are specified.
3. Copies of legal documents for the land which is to undergo the construction in the project, its reconstruction, or the alteration of the functions of detached buildings.
4. Copies of the approval documents for the design (Architectural and Planning Specifications, or Engineering Specifications).
5. Technical condition report, including capacity for reconstruction, alteration of functions or rezoning, issued by the authorized bodies or experts (for projects in which design changes are desired).
6. Design Brief.
7. Documents confirming permission for re-use of original project documentation by customer, in which the exclusive rights are owned by another individual (agreement on the surrender of exclusive rights, license and/or sub-license).
8. Agreement in accordance with the established procedure for custom design, or a restated and amended project for the re-use of a completed "contractor design" – meeting the requirements for proper examination.
9. Positive examination results of reused project or its modification, issued not more than 3 years before the date of the application for state examination of the draft.
10. Necessary documentation for calculations of land costs, including depositor's construction outlays and any other property fluctuations.
11. Reported results of geotechnical research made in compliance with the requirements of the technical regulations (for project construction or alterations of design loads on established foundations), or required and sufficient for design and construction information on geotechnical conditions at the construction site, affixed with the seal of a body having permission to perform the relevant engineering research.
12. Engineering and geodetic research data at the construction site, performed not more than 2 years before the date of project examinations (except for redevelopment projects without major design alterations).
13. Information regarding qualified certifications or copies of licenses to perform relevant activities possessed by executive for project documentation and engineering research, or person responsible for depositor's construction outlays calculation.

ATTENTION!

Address, phone number, and the official website of the State Agency for Construction and Regional Development under the Government of the Kyrgyz Republic is specified in the "Useful addresses and contacts" section.

Stages of pre-work and the price of government services

Ambulance		
Visit by an ambulance team, on-site care with subsequent hospitalization at health institution	0	2,400

Note: The average cost of medical services at state institutions is based on the price list of paid services at the National Oncology Centre, Presidential hospital, Republic Centre of Psychological Health, Republic Diagnostics Centre.

Source: The average rate was compiled from prices given by the following private hospitals: www.onclinic.kg, www.medcenter.kg, www.neomed.kg, www.lab.kg, www.intelmed.kg, www.estet.kg, www.urfa.kg

To calculate above services costs take cost in USD at exchange rate of NBKR for 01.07.2013 (48, 8405)

20. Examples of establishing a business (procedure and cost)

Cost of establishing an auto repair shop

ATTENTION!

- To create an auto repair shop you need to have good driveways to be competitive with other shops
- The optimum area for repairing light vehicles is 300 m².
- It is desirable to determine the scope and select a narrow specialization for an auto repair service center like: tuning, installation of xenon-tinted glass, etc. You could also focus on the servicing of individual vehicle brands
- Marketing is also important factor; outdoor ads should be placed near shopping centers, sport clubs, and entertainment venues. In addition you will need to place ads on the internet and in classified print media
- Required vehicle parts and accessories catalogs can be found on the official websites of dealers and manufacturers.
- It is recommended that an auto repair shop be located a minimum of 50 meters from residential buildings

Sample calculation of start-up costs of an auto repair shop

Fixed expenses	Unit cost in KGS	Number of units	Total cost in KGS	Total cost in USD at exchange rate of NBKR for 01.10.2013 (48,6561)

Cost of establishing and conducting business in the insurance sector

ATTENTION!

- The insurance sector in the Kyrgyz Republic currently has not yet developed fully and its potential for growth is great.
- The most commonly used and successfully implemented types of insurance are voluntary motor liability insurance, insurance against accidents and illness, and insurance of movable and immovable property.
- Within a short time the Kyrgyz Government may soon adopt new laws regulating statutory types of insurance, including obligatory insurance of civil legal liability of vehicle owners.
- Consequently, for newly established insurance companies it is recommended that they provide a combination of voluntary and obligatory types of insurance.
- At the initial stage of conducting insurance activities the recommended number of staff is 12 employees.

Sample calculation of start-up expenses in establishing and conducting business as an insurance company

Fixed expenses				
Setting-up authorized share capital				
For insurance companies operating with a combination of voluntary and obligatory types of insurance and reinsurance	For newly established insurance companies performing voluntary types of insurance and reinsurance	For newly created insurance companies operating only in reinsurance	For operating insurance companies engaged in voluntary types of insurance and reinsurance	For operating insurance companies performing only reinsurance activities

Cost of establishing a guest house as a personal business

ATTENTION!

- Register as a private entrepreneur. (For information about procedures and costs refer to “Opening business” section).
- In the event of the presence of a public catering point within the guest house you would need to get licensed for retail sale of alcohol products. (Information about procedures and costs is specified in the “Licensing and Certification” section).
- It is also necessary to obtain permits showing compliance with safety and health requirements from the Fire, Sanitary, and Epidemiological and other administrative services, as well as from the internal affairs authorities..
- Monitor the location, where you want to open your business. After choosing the best location for your guest house make calculations of how many rooms and guests you are planning to have as this will determine your business plan. Usually there are about 5-15 rooms in guest houses.
- If you already own a structure, it is a great advantage. You will only need to complete the rest of the work like interior and exterior finishing, etc. On the other hand, if you plan to start construction of a new guest house from the beginning the expenses will increase significantly.
- Once the house is ready get the necessary amenities and equipment related to its furnishing and decoration, including the beds for each room. After, purchasing them prepare the necessary stock of linen for replacing. Plan a budget of 2-3 sets for 2 weeks of guests’ staying for each room.
- Furnishing the kitchen also takes a lot of energy and finances, which would help make your guests’ stay in your guest house more comfortable. In addition, you have to change the menu on a daily basis.

Sample calculation of start-up costs for a guest house business (10 rooms)

Fixed expenses	Unit cost in KGS	Number of units	Total cost in KGS	Total cost in USD at exchange rate of NBKR for 01.10.2013 (48,6561)

Cost of establishing the sewing studio

ATTENTION!

- In a provision of the Law of the KR, dated 12.05.06, #86, a patent system for taxation and social security contributions for the next 5 years for the sewing industry is still being implemented.
- According to the Government Decree dated March 26, 2012, #204, equipment imported into the territory of the Kyrgyz Republic by enterprises of sewing, textile, and furniture industries are exempted from customs fees.
- Around 92% of textile and clothing products produced in Kyrgyzstan are exported to Russia, Kazakhstan, and Uzbekistan.
- In 2013 the Governments of Russian Federation and the Kyrgyz Republic have signed an agreement simplifying customs procedures for sewing production.

Required amount of sales	401,642		4,819,704	98,967

Cost of establishing a business for the production of solar dried fruits and vegetables

Business Development Prospects

Attractiveness and opportunities of business	The Kyrgyz Republic has great potential for cultivating fruit and berry crops, especially early-maturing ones. The ecology of Kyrgyzstan and its clean environment allows for the harvesting high-quality fruits and vegetables. The average area of Kyrgyz fruit crops, grown outdoors was estimated to be 48.2 thousand hectares, with potential yield of which is about 50 q/ha with a production volume of more than 200 thousand tons. Moreover, the gross harvest of vegetables grown in Kyrgyzstan has grown to more than 800 thousand tons. The largest area occupied for vegetable crops in Chui region-47 %, Jalalabad-15%, Osh-13%, Talas-12%.
State support of enterprises processing agricultural products	The government has taken a number of measures to support enterprises processing agricultural products. For example, all companies involved in the processing of agricultural products are exempt from income tax and VAT for a period of three years (2013-2015). As well as an exemption from sales tax for the export of processed agricultural products. Since October 2012 a preferential credit line for enterprises performing agricultural activities was opened.

ATTENTION!

- 1) By Decree of the Government of the KR dated 25/01/2013, № 37 enterprises performing industrial processing of agricultural products, shall be exempt from income tax for three years, according to the list being set by Government of the KR.
- 2) By Decree of the Government of the KR dated May 3, 2013, N 226 enterprises, according to the list set by Government of the KR are exempt from value added tax for a period of 6 years.
- 3) The following groups:
 - a) agricultural producers.
 - b) agricultural trade and service cooperatives operating in the sale of goods, work, and providing services are exempt from sales tax liability.

Sample calculation of start-up budget for business producing dried fruits:

A) using own land plot and premise

Fixed expenses	Unit cost in KGS	Number of units	Total cost in KGS	Total cost in USD at exchange rate of NBKR for 01.10.2013 (48,6561)
